WALTON TO SEEK DELAY OF TRIAL REVIEW APPEAL

In Motion Asking for Delay Walton Claims Counsel Has Been Ill.

SHORT TO RESIST

Walton Claims He Did Not Know of Action of His Attorney

WASHINGTON, April 5.—Former governor Walton of Oklahoma will ask the supreme court when it reconvenes Monday to delay consideration of his appeal for review of the Oklahoma senate impeachment proceedings against him.

A motion asking for the delay was drawn up and left with the clerk of the court, in it Walton says his counsel has been ill, has not been able properly to prepare for the argument, and has had other business requiring his attention at this time.

No notice has been given whether the motion will be opposed by the Oklahoma house of representatives and the other defendants.

OKLAHOMA CITY, April 5.—George Short, state attorney general today prepared to resist a continuance of the hearing in United States supreme court of J. C. Walton's appeal for a review of his impeachment trial before the senate.

After Short had been advised that Walton's attorneys in Washington were to seek a delay he made public this telegram which he had sent to the clerk of the supreme court.

"I am apprehensive the Walton attorneys will ask for a continuance on Monday. I cannot reach Washington before April 8. Should his counsel submit motion for a continuance Monday will it be possible for me to be heard when I arrived? Walton asserted today that he did not know what his attorneys were doing.

"I have been out of touch with them," he said.

CHRISTIANS PLAN CHURCH BUILDING

Latest Church Structure For Ada to be Started Soon

The First Christian Church congregation has completed the plans for work to start on the new church house, which will be located at the corner of Broadway and Thirtieth street.

The building will be a beautiful gothic structure, with an auditorium seating about 600 and with a Sunday school apartment of three stories and twenty rooms. All of the modern features will be included.

The cost of the building will be about \$50,000 exclusive of the real estate. This does not include any of the furnishings such as pews, pipe organ or other equipment. The total value of the property when it is completed will be about \$75,000.

The Sunday school rooms will be built next to the alley, beginning near Broadway and running east across the entire lots. The auditorium will extend from this north, facing Thirtieth street. It will be different from any other church building in the city.

The architect is Albert Ross of Ada. The work will be supervised by a building committee from the congregation.

This church is growing rapidly, and the old building across Broadway from the City Hall is inadequate to take care of the needs.

Fifty-Eight to Get Diplomas in Graduation Here

Fifty-eight, possibly sixty, diplomas will be issued to graduates of Ada high school by the city board of education at the end of the coming seven weeks of school. This number represents an increase of at least four over the number who graduated a year ago and is in line with the growing student body of the institution.

The graduating class of this year is almost equally divided between boys and girls and has gone through a lively year with Vester Willoughby as president. Most of the class have spent their entire high school experience in Ada.

Arrangement for programs for the graduating have not been completed but will be made before long.

Notice Members of the Rainbow: The annual devotional services of the members of the Rainbow will be held Sunday, April 13 instead of April 6 at the Presbyterian church. Etta Mae Dawson, Secretary.

DOUBT EXISTS OVER ARCHDUKE IDENTITY

(By the Associated Press) NEW YORK, April 5.—Doubt that O. N. Orlow was the long mysteriously missing Archduke Johann Salvator of Austria was expressed today as his friends prepared for his funeral in the Roman Catholic church at St. Rose of Lima.

Frederick Confesse-Owen, who knew the archduke forty years ago in Vienna, said the nobleman would have been 73 years old this year while Orlow was given as 64 when he died Monday. Orlow, he pointed out, had flowing gray hair while the archduke was bald even in his youth.

Mrs. Charlotte Fairchild, friend of Miss Grace Wakefield, the ward of the aged man, who committed suicide the day after his death, clings to the belief that Orlow was the archduke. She said he had deliberately misrepresented his age to avoid identification and that at court he conformed to the then prevalent custom of shaving his head and was not bald.

CANDIDATES HERE FOR ADA LINEUP

Practice Game Saturday is Opening Gun for Game With Shawnee

Most of the candidates for positions on the team that will follow in the footsteps of past Ada independent aggregations were present yesterday for a culminating workout of the past week, a practice game.

Manager A. O. Green indulged his men in a match that proved a real contest, the final result being a score of three to two. Only one regular pitcher was on hand and twirled for the regulars. The rookies, strengthened by the addition of several regulars, backed Zip West in offering considerable opposition to the other team.

The coming week will see the players working hard in their efforts to get into shape for the opening game of the season with Shawnee, whose team is a member of the Oklahoma state league. The Shawnee team will be here on April 12 and 14 for a two day series.

Burnett is at present the only pitcher in camp. He is left handed and is showing well. Manager Green expects another pitcher in before the first game in time to work out with the team.

At present Kelly is holding down first, with Fain at second, Ralph Wanner at short, and Young at third. Clary, Lee, and Kaiser will receive the offerings of the pitchers. Green has a wealth of material for the outfield including Kirkpatrick, Johnson, Allen, Page, Harrison, West, and probably Lloyd Wanner.

Green is well pleased with the showing made in practice by the team and is confident of holding up the reputation of Ada teams in the last few years.

He Wins

(By the Associated Press) CHICAGO, April 5.—A thirteen year old boy, with fourteen radio sets, all in working order, disposed about his person, appeared to enter the school playground radio set making contest today.

He was Wilbur Wetlin and one of his sets was fashioned of his mother's vanity case. Her powder box, and a pencil and two fountain pen caps proved the receptacles for three more. He produced a penny match box, a mousetrap, an old watch case, two peanut shells, and several other "pieces of junk" all of which were receiving sets. The peanut shells, he explained, cost a nickel because he had to buy a bag of peanuts.

MAN SHOOT'S WOMAN, THEN TAKES OWN LIFE; JEALOUS

(By the Associated Press) FREDERICK, Md., April 5.—Leona A. Estell Whittier, 25, was shot last night by Clinton Sheppard, her 42 year old suitor, because she says, she refused to marry him by today. Sheppard shot himself.

Examination of Sheppard's body disclosed another bullet wound believed to have been inflicted by Miss Whittier who said she shot him during struggle. Sheppard was said to have been jealous over the attentions of a rival.

STIMBLING WOULD FIGHT FOR OLYMPIC BENEFIT

(By the Associated Press) NEW YORK, April 5.—Young Stimbling, Georgia light heavyweight today agreed through his father-in-law, "Pa" Stimbling, to box Mike Burke of New York, in a six round bout for the benefit of the Olympic fund here on April 19 provided Atlanta promoters will release the youngster from contract to box there on the same date.

Let a News Want Ad get it.

CHANGE BROUGHT ABOUT IN FINAL TAX BILL SLASH

Changes in Tax on Radio Sets, Jewelry and Estates

TEN PERCENT RADIO TAX

Ten Percent Tax on Mah Jongg Sets Only New Legislation.

(By the Associated Press) WASHINGTON, April 5.—A last minute attack on the revenue bill in an all day session of the senate finance committee today brought changes in the tax on radio sets, jewelry and estates, and postponed a report of the measure to the senate until next week.

The ten per cent radio tax was made applicable to all sets and parts without exemption after the committee earlier in the day had voted to increase from fifteen to fifty dollars the minimum price of a set on which the tax would be levied.

This and the ten percent tax on Mah Jongg sets costing more than five dollars are the only new taxes carried by the bill. The taxes are levied on the manufacturers. The committee earlier in the day had voted to increase from fifteen to fifty dollars the minimum price of a set on which the tax would be levied.

Just which parts will be taxed will be left to the jurisdiction of the internal revenue bureau as to the care of the tax on automobile parts, Mr. Smoot said. He figured they would not amount to \$10,000,000 pointing out, however, that no accurate estimate was now available.

Practically all of the rate schedules now have been agreed upon, Mr. Smoot said, and he predicted that the few odds and ends of the bill yet to be taken up would be agreed upon Monday so that the bill may be reported to the senate by Wednesday. This, however, will necessarily delay actual consideration of it in the senate until the following week.

Meanwhile, Chairman Smoot said, the soldier bonus bill passed by the house would be taken up by the committee. Little time would be necessary for disposition of this measure, he added, and several republican members predicted the bonus bill would be given precedence over the tax bill on the floor of the senate.

Changes made today in the bill will not alter materially the estimate that it will fall by \$50,000,000 of raising sufficient revenue to meet estimated expenditures of the government next year, Chairman Smoot said. He has predicted, however, such a deficit would be wiped out by an increase in revenue over that estimated by the treasury.

DEMONSTRATION FORMS ACQUITTAL OF WOMAN

(By the Associated Press) NEW YORK, April 5.—Mrs. Essie Gross, 25 years old, was acquitted of the murder of her husband, Irvin, last night in a few minutes more than an hour after the case had been given to the general sessions jury.

The acquittal came as rival groups of relatives prayed for release or conviction of the woman and was followed by a demonstration of her friends that could only be stifled by the interference of the police who escorted shouting celebrants from the criminal courts building.

As the jury deliberated friends and relatives of the accused woman held a religious service in an adjoining courtroom while relatives of the slain man prayed for her conviction in a corridor.

Gross was killed in his Bronx apartment last December. The wife's defense was that her husband was accidentally shot as they struggled for possession of a gun after a quarrel over Gross' alleged maltreatment of her.

Total of Tornado At Shawnee Added By Another Death

SHAWNEE, April 5.—The number of deaths resulting from the tornado which struck this section of the state a week ago was increased to nine this afternoon with the finding, 10 miles west of this city of the badly decomposed body of R. Avant, 65 years old and a widower. The body, partly dressed was found in bed and showed signs of injury about the head.

A county attorney's inquest determined that Avant "died as a direct result of the storm of Friday, March 28."

-Editorial-

Tonight or tomorrow or soon you or your wife or your son or daughter, will be dead—dead on account of the carelessness of your own driving or that of some other person.

Ada today, is one of the most dangerous places in the world,—dangerous on account of the fool drivers of automobiles.

Laws do not seem to reach the cases. On the streets away from the general beat of the cops, drivers indulge in speeding, cutting corners and dashing madly across street intersections.

We do not believe in the primitive getting the upper hand but who could blame a man whose wife or child is killed, to take a gun and end the life of the careless driver. This should not be the case, but when roads are molested by murderers in action if not in intent, something must be done.

The time has come for action. Traffic laws must be enforced. Traffic law violators are criminals and should be dealt with as criminals. They are potential murderers just as much as the man with a gun in hand.

SHRINERS REPORT READY FOR MEET

Local Club Completes Plans For Final Appeal For Temple Here

The contention of Pontotoc County Shriners for the dispensation for the Delphi Temple at Ada, now awaits the verdict of the imperial council at Kansas City at the national convocation, which will be held June 4, 5 and 6.

All preliminary steps have been taken by the Pontotoc County club and the good will of the Shriners of this section of the state has been voiced through signing petitions for the designation of the Temple at Ada.

Funds through entertainments have been secured for a large delegation of Shriners to the national convocation at Kansas City. In fact everything has been looked after by the Pontotoc County Shriners to influence the good will and support of the imperial council for their favor in permitting the temple to be designated at Ada.

In the campaign for signatures of petitions, names of 630 Shriners living in this section of the state and representing temples from all corners of the United States have been secured as well as the good will of the India Temple at Oklahoma City, which has claimed the bulk of membership from Pontotoc county Shriners.

In the list of signers on the petition, 445 Shriners registered from India Temple at Oklahoma City, 184 from Bedouin Temple at Muskogee and 61 from all others.

Among the Shriners signed from temples other than India and Bedouin, the following temples and locations are represented: Al Shiah, Macon, Ga.; Tangier, Omaha, Neb.; Almad, East St. Louis, Ill.; Mirza, Pittsburg, Kan.; Kosair, Louisville, Ky.; Al Malakiah, Los Angeles, Naba, Deadwood, S. D.; Arabia, Houston, Tex.; Yonah, Atlanta, Ga.; Hella, Dallas; Adkar, Tulsa; Musiah, Fort Worth; Moskat, Wichita Falls; Midian, Wichita; Isis, Salina, Kan.; Aban Ben Alhem, Springfield, Mo.; Al Chryna, Memphis; Almas, Washington, Alabama; Chantunaga, Kaven, Waco; Khedive, Norfolk, Va.; Medina, Chicago; Abdullah, Leavenworth, Kan.; Rajah, Reading, Pa.; Karubah, Shreveport.

Wife of Publisher Files Alienation Of Affections Suit

(By the Associated Press) NEW YORK, April 5.—Mrs. Eleanor Brewster, wife of Eugene V. Brewster, wealthy publisher of nation picture magazines, today filed suit in the supreme court against Miss Corliss Palmer, charging her with alienation of her husband's affections and asking \$200,000 damages.

In 1922 Mrs. Brewster began a suit for separation, maintaining that her husband had been in his Roslyn, Long Island, home, a screen actress. After the suit was settled out of court Brewster took up his home on an estate at Morristown, N. J., where he was said to have installed Miss Palmer, her mother, and family. He declared he would marry Miss Palmer as "soon as the law permits."

Hundred For Baths

(By the Associated Press) PANAMA, Ju., April 5.—Arraigned in Shelby county court this morning, charged with possessing five gallons of "moonshine," Charles Neill, prominent Findlay farmer, explained that he uses the liquor for rheumatism baths.

"Hundred and costs, for baths, then," Judge Franklin Dove ruled.

Daughter Probers Recess.

WASHINGTON, April 5.—The Daugherty investigating committee was in recess today after another week of searching inquiry. The committee is expected early next week to hear Secretary Weeks with reference to aircraft fraud cases.

In Congress

The house began debate on the Johnson immigration bill.

The bureau pension bill was reported from the committee to the house as passed by the senate.

The house merchant marine committee contained its hearings on section 28 of the merchant marine act.

The senate finance committee was unable to complete consideration of the revenue bill and put over final action until next week.

E. L. Doheny was granted an indefinite delay at his request to appear before the senate oil committee for questioning on campaign contributions.

The Daugherty committee was in recess but plans were made to go into the question of anti-trust law enforcement by the department of justice next week.

President Coolidge asked the agricultural credit corporation to undertake with the war finance corporation the extension of credits to Northwestern wheat growers.

The house rivers and harbors committee adopted a resolution to transfer control of improvement works on the Mississippi river from Mississippi river commission to the secretary of war.

Representatives of several farm organizations declared in an open letter that a continuation of unfavorable conditions on American farms would result in a general "deportation" of American farmers.

SPECIAL INSTRUCTORS TO ASSIST SUMMER TERM

The state board of education on Wednesday authorized the securing of 25 special instructors for the coming summer session of East Central. These are required in addition to the regular faculty members to accommodate the immense numbers who are expected to attend the summer enrollment far beyond all past records.

At the same meeting the board adopted the course of study as presented by the faculty committee which was composed of teachers from the state teacher colleges. President Linscheid of East Central served as Chairman.

The course of study as adopted will standardize the work of the state teacher colleges. It will not result in many changes, being aimed at simplification of the courses already offered. Some courses are dropped, having become obsolete, while a few were added to keep the state institutions in line with the modern trend of education.

Hiram Johnson Praises Walsh For His Service

(By the Associated Press) OTTAWA, Ill., April 5.—Senator Hiram Johnson of California today praised Senator Walsh of Montana for the part he is playing in the oil investigation in Washington, declaring that "there is no higher duty any man can perform for the people of the United States than to expose a man who has sold out."

"This is the time for immediate, alert and drastic action," Mr. Johnson said in his address. "What is happening in Washington is furnishing soil for anarchy and bolshevism. Every Slump, every Doheny, every Sinclair in Washington would scurry to cover if Roosevelt had been the president."

THREE FAMILIES NARROWLY ESCAPE DEATH FROM BLAST

(By the Associated Press) CHICAGO, April 5.—Three families narrowly escaped death today when a meat market was bombed, breaking a gaspipe and damaging the apartments on floors above. Policemen and firemen rushed into the debris and gas fumes and rescued half a dozen children while the adult members of the families made their way to the street. The owner of the meat market said he was unable to offer an explanation for the attack.

KENTUCKY GUARDSMEN GO TO MINE UPRISING

(By the Associated Press) FRANKFORT, Ky., April 5.—Two companies of Kentucky national guardsmen were ordered to the mining camp of the Liberty Coal and Coke company on Straight creek in Bell county by Gov. W. J. Fields late today where an outbreak of labor trouble was marked by the killing of one man and wounding of another Thursday.

The troops were moved in motor trucks and it was expected they would be on duty by early Sunday.

"The situation is very tense and complicated by inroads of unknown parties, supposedly agitators from other mines," Adjutant General Kelso told the Associated Press before leaving for Straight Creek. "The adjutant general's office is holding in readiness three large units for instantaneous dispatch in the event it becomes necessary."

DOHENY GRANTED DELAY IN PROBE

Senator Spencer Explains Reasons for Oil Man's Need for Delay.

(By the Associated Press) WASHINGTON, April 5.—Edward L. Doheny, for whom a subpoena was issued by the oil committee more than a week ago, has been granted an indefinite delay by Senator Spencer, republican, Missouri, at whose request the summons was issued.

Senator Spencer said Doheny had advised him that because of pressing business matters it was not convenient for him to leave Los Angeles at this time. The Missouri senator desires to question the lease of California naval reserve number one concerning his contribution to the democratic campaign fund of 1920.

Upon his last appearance before the commission last February Doheny promised to make further efforts to find the missing part of the note he said Albert B. Fall gave his son, E. L. Doheny, Jr., when he delivered \$100,000 in cash to the former interior secretary in Washington on November 30, 1921. The committee has heard nothing further from him, however, so far as has been made known. Democrats on the committee desire to question Doheny further regarding this note and also regarding several other matters.

When the oil committee resumes its hearings Monday W. L. Kistler of Tulsa, Oklahoma, and others will be questioned regarding gossip of "oil deals" at the Chicago republican convention in 1920.

WASHINGTON, April 5.—A busy staff of assistants spent today pushing the ever widening circle of the senate Daugherty commission still further out, even though the committee itself was not in session.

Senator Wheeler, democrat, Montana, the commission prosecutor, promised that before the end of next week witnesses would go on the stand to testify concerning the record of the department of justice in the matter of anti-trust law enforcement, which is one of the new fields of inquiry upon which the committee is not entered. Monday will be devoted, however, according to present plans, to the taking of additional evidence bearing upon Indian land cases in Oklahoma and the enforcement of prohibition.

CAMPAIGN FOR FUND TO AID SERVICE MEN'S CHILDREN

(By the Associated Press) BOSTON, April 5.—Plans for the raising of a ten million dollar fund by the national children's welfare committee of the American Legion for the care of children of former service men who have been left orphans were announced at a meeting of the Boston committee today. Gen. James A. Drain of Washington, D. C., outlining the plan to the meeting, said there were about six thousand of such orphans in the country.

OBREGON DECLARES HUERTA REVOLT DEAD IN MEXICO

(By the Associated Press) MEXICO CITY, April 5.—President Obregon described the de la Huerta revolution as "dead" in a talk to the newspaper correspondents today, predicting that before May 15 there would not be any rebels left only small groups of bandits hiding in the hills. He declared that executive power would be transferred without molestation next December to the candidate who was victorious in the July presidential election.

IMPORTANT NOTICE TO MASONS

The special team who are to confer the Master Masons Degree in the Consistory at McAlester on the 21st have been requested to do the work here in the Masonic Hall Monday night, the 7th. All members of this team including the Fellowcrafts please note as this may be the last assembly of this team before going to work in the Temple.—E. C. Peay, W. M.

GERARD BRANDS HUGHES STEP IN ARMENIAN DEAL

Declares State Department Sold Armenian Cause For Oil Right

PUTS TWO QUESTIONS

Refers to Secretary's Aid Chester Interest for Oil Rights

(By the Associated Press) NEW YORK, April 5.—Calling upon the senate to reject the Lausanne treaty, James W. Gerard, former ambassador to Germany, declared before the foreign policy association today that the state department had sold the cause of the Armenians and American rights in Turkey for the Chester oil concession.

"I will put to Secretary Hughes two pertinent questions," Mr. Gerard said.

"Why did he take so active and vigorous a part in behalf of the Chester oil concession, even at the risk of forcing resumption of hostilities, and why does he now deny that he has had anything to do with it?"

"Why did he request General Gerdhals to accept the presidency of the Chester commission and in what capacity did he direct the reorganization of the commission?" "Secretary Hughes made a hurried and inglorious retreat from the position which he took in December 1922. He accepted the Turkish views on the capitulations and upon the Armenian case.

"In other words, in consideration of the Chester concession, he surrendered to the Turks that which he claimed for American nationals and for Armenia before the granting of that concession. Obviously, he went to Lausanne fully prepared to make any and all sacrifice to clinch this oil concession, and he betrayed Christian Armenia, and his own country, to attain his purpose."

Professor Albert Bushnell Hart of Harvard, in a letter sent to the meeting, said the fundamental trouble with the Lausanne treaty was that it assumed that "the so-called republic of Turkey is a modern civilized nation."

"There is no assurance that the Turks, who authorized the signature of the treaty, will carry out any provisions that hereafter may seem inconvenient," Mr. Hart's letter continued. "The Turks have been making the same kind of promises of good behavior and protection to the foreigner and recognition of the rights of minorities for more than a hundred years, and they have never observed one of those pledges."

NEGRO STILL STORM CENTER AT COLUMBIA

(By the Associated Press) NEW YORK, April 5.—Furnald Hall, residential dormitory at Columbia university, a room of which is occupied by Frederick W. Wells, negro law student of Union City, continues to be a storm center. Wells has received two letters threatening death, purported to have been sent by Ku Klux Klansmen.

As three members of the police bomb squad kept guard in the dormitory last night two factions in the dispute strengthened their lines. J. B. Rucker, chairman of the hall committee, presented to Dean Hawkes a resolution of the committee asking Wells' removal from the building. A counter-request urging that Wells be allowed to stay was signed by one hundred residents more than half of those in the building. Dr. C. M. Mantell, one of the ten members of the hall committee, resigned. He was the second to go during the week.

Attorney General is Asked for Opinion On Highway Measure

(By the Associated Press) OKLAHOMA CITY, April 5.—Attorney General George E. Short has been asked for an opinion on the legality of the operation of the state highway department in view of the fact that the highway bill passed by the last legislature made no special appropriations for salaries of department employees. The bill provided that the department should be maintained out of the highway construction and maintenance fund and the question has been raised whether a special appropriation is needed to legalize the payment of salaries to employees of the department. The request for an opinion came from C. C. Childers, state auditor, and other officials interested.

Firpo Wins Again. BUENOS AIRES, April 5.—Luis Angel Firpo knocked out Al Relch tonight in the first round.

POWER is generated by energy and energy by the will "to do."

Have you ever seen a heavy cart stuck fast in a rut of mud? The jaded horse unable to move it another inch because of drooping spirit and lack of interest.

A dozen onlookers--some merely waiting to see what is going to happen--others giving advice and direction. But none of these will start the cart moving.

Then from the crowd step out three or four "doers." They put their shoulders to the wheel lending both effort and example until others follow them. The thing begins to move--gains momentum as all things do when once out of a rut.

And so, also, is it with civic progress--community movements, local enterprise--when "doers put their shoulders to the wheel."

SEARCH STARTED FOR BIRD
IN WILDS OF AMAZON

(By the Associated Press)
NORFOLK, Va., Apr. 5.—A search for Hoatzin, a reptilian bird described by scientists as a survival from prehistoric ages, was begun today by a party of ornithologists who left here aboard the steamer Stephen for an expedition into the jungles of the upper Amazon river where living specimens of the strange creature are reported to have been seen.

The Hoatzin, according to ornithologists, began life as a fish paddling about in the Amazon ooze.

Former Ada Hill Artist is Brightest Light of Frisco Recruits

Guy (Lefty) Williams, erstwhile Ada baseball star and pitching ace, has "arrived." No longer is he a mere candidate for big league honors. He has shown that he has the stuff and is now a regular member of the San Francisco Seals, having won a position over seventeen other rookie pitchers who were ambitious to represent the coast city in the Pacific coast race this year.

Williams is the only rookie to be retained by the club, having made good in his early tryouts, and is considered one of the brightest prospects in the entire league with the season just opening.

After making a brilliant record in the preliminary games Lefty was sent against the Pittsburgh Pirates to hold down the sack for the Seals. For seven innings, he held his experienced opponents, the best the Pirates had to offer, well in control but in the eighth began to weaken. Another pitcher was substituted and the game quickly lost.

In this game Lefty made what is believed to be a world record, that of tossing nineteen balls without a blow being offered. In making this record he struck out two and passed one batter, with two balls and one strike on another before a batter so much as struck at his offerings.

Comments on Williams' pitching gathered from Pirate players indicate that he had won their respect. Their manager expressed a willingness to sign him up immediately, while the players who faced him showed respect for his offerings.

Incidentally he won for himself a regular place in the Seal schedule and it looked to for a great record in his first year of big baseball. It is said that he secured three hits in one game, which indicates improvement in hitting.

Motor Trouble is Cause of Delay in Round-World Flight

SEATTLE, Wash., April 5.—Motor trouble with the plane of Major Frederick L. Martin, commanding the flight of four cruisers of the United States army's around the world flight, stopped a hopoff today as the machines were ready to rise from Lake Washington after the engines had been started with difficulty.

Major Martin said another start would not be attempted until tomorrow.

Major Martin also broke the metal tip off a propeller. The main trouble, however, it was announced, was that his motor would give only 1,500 revolutions per minute where as he needed 1,700 to rise with his load of fuel.

Fore!

By AGOLPH BUGG

They ain't been much 't' inspire spring poetry so far this alleged spring. In fact 't' beauties uv spring has been as scarce as holes in 1. A few ducks has been scared off uv Red river an' come over 't' last week, but no duck that had got 't' Florida would be fool a nuff 't' come back 't' this country with 't' weather bein' like it has been this alleged spring.

Th' art uv mud shots has been developed 't' 't' n'th degrees, where ever they is, by 't' few that has failed 't' get golf out uv 't' systems an' has gone out 't' 't' course an' tried 't' play between 't' deluges. Uv course they has had 't' advantage uv 't' n'th degrees, where ever they is, by 't' few that has failed 't' get golf out uv 't' systems an' has gone out 't' 't' course an' tried 't' play between 't' deluges. Uv course they has had 't' advantage uv 't' n'th degrees, where ever they is, by 't' few that has failed 't' get golf out uv 't' systems an' has gone out 't' 't' course an' tried 't' play between 't' deluges.

Feelin' a hunch that 't' day wuz goin' 't' be a better day fer yaht racin' than it would be for golf, 't' typer uv the lines went out 't' shoot a round yesterday afternoon. Accordin' 't' 't' calendar, 't' winter rule uv 't' n'th degrees, where ever they is, by 't' few that has failed 't' get golf out uv 't' systems an' has gone out 't' 't' course an' tried 't' play between 't' deluges.

Uv course a guy that goes out 't' 't' course with a nice bunch uv alabins can make 't' story uv his round sound a hole lot better than 't' careless guy that leaves his alabins 't' home. One uv 't' handiest alabins 't' typer uv these lines ever used is 't' 't' one about tryin' 't' change form on a certain kind uv shot.

For inst. almost ever day now when you pick up a paper an' turn 't' 't' sportin' page, you see a article wrote by some pro on 't' proper way 't' hold 't' club for a long low drive again 't' wind. Well, 't' idea appeals 't' you, havin' smacked one out a few days a go that went so high it nearly fell on you while still on 't' tee. You can't hardly wait till you get home 't' get out 't' driver an' stand 't' same way 't' guy does in 't' picture an' swing a few times barely missin' 't' light fixture. An' long an 't' shank uv 't' evenin' you goes out 't' 't' course 't' try out 't' theory.

Th' first time you try it, it works fine, like most first shots in golf does. Th' second time you find 't' ball has somehow went straight 't' a hazard, which any shot is liable 't' do at times. But when 't' third drive begins 't' head 't' 't' cactus lookin' like a rainbow tryin' 't' turn over on 't' back, you begin 't' wonder if 't' pro that wrote that article wuz as good as 't' says he is. Th' fourth drive, which you also try 't' play 't' same way, not likin' 't' be disrespectful uv no one you ain't met, also heads for 't' jungles, an' you decides 't' play 't' rest uv 't' drives accordin' 't' your old form. So you steps up on 't' 5th tee with a feelin' that you has made a monkey out of yourselfs long a nuff an' you will now show any uv 't' article wrtn' pros a example uv form that is worthy uv a continued story. Well, it would take a asbestos tablet 't' contain 't' remarks you makes when you sees what 't' dream uv a perfect drive has turned into. Th' only part uv 't' old game that is natural is 't' language an' they may be a few new ideas creepin' int' it, but they won't be 't' result uv readin' no articles on how 't' play 't' game. An' when 't' wife asks you whut your score wuz fer 't' round, you use 't' newspaper article for a alibi an' improve 't' lie again. They ain't no doubt but what 't' alibi which is got from readin' 't' articles on how 't' play golf is improvin' 't' lies uv golfers all over 't' country this alleged spring.

Cheaper Iron for German Ships

BIEMEN.—Ship building in German ports, which experienced a slump some months ago, has been given a stimulus by the recent announcement of a reduction in the price of iron.

The Hansa Steamship Company, of Bremen has decided to begin work at once on four steamers of 12,000 tons each. The contracts will be let to firms in Hamburg, Bremen and Kiel. Other shipping companies are contemplating letting contracts for vessels in the spring.

L. E. FRANKLIN IN
COURT CLERK RACE

L. E. Franklin authorizes the News to announce his candidacy for reelection to the office of Court Clerk, subject to the action of the Democratic primary.

Mr. Franklin has made an enviable record as an official. He has made efficiency his watchword, has put forth his best efforts and his office has been well managed in every detail. This office, when properly handled, is one of the largest revenue producers in the county and Mr. Franklin has taken special pains to see that it is kept up to the maximum.

Mr. Franklin believes in handling public business in the same way that one's personal business is looked after and has at all times been ready to extend every courtesy possible to one and all who have business with his office. He invites the closest scrutiny of his record, confident that this will result favorably to him.

Self-Styled Wealthy Promoter Has Late Version to Murder

(By the Associated Press)

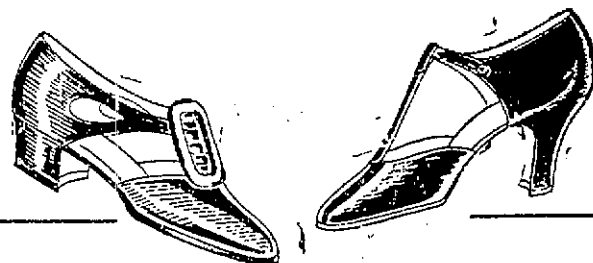

CHICAGO, April 5.—Russell Scott, former Toronto promoter, who according to the police, confessed and then denied a holdup in which a drug clerk was killed, has repudiated the story and declares no holdup occurred, it was disclosed today.

Although Scott has been identified by victims of holdup men in the presence of those who were in the store at the time, he declares, he

and his brother and one of the witnesses went to the drug store to buy drinks and that the shooting occurred during an altercation over the price of the drinks. The police believe fear of the gallows led him to tell the latest version.

COLLEGE LIBRARY KEEPS MUSIC REFERENCE WORKS

The East Central College has 50 reference works on music in its library of which Mr. E. C. Wilson is librarian. These works are by the leading compilers of music, histories, compositions, opera, harmony, song writing, and music appreciation. Of this 50 books we find 23 of the works as listed and recommended by the Music Division, General Federation of Women's Clubs.

JUNIOR AND SENIOR PIANIST CLUBS MEET

The Junior Pianist club met at the high school Saturday afternoon at 2:30. Features of the program were discussions of Beethoven and his works by Louise Spencer and of Haydn and his works by Paula Wills. After the history lesson each member of the club played a number.

The Pianist Club met at 2:30, also at the high school. After a business session the regular program for the month was rendered. Misses Edna Mae Gregg and Melba McCoy and Mrs. W. A. Hill will leave for Ponca City Tuesday where they will attend the meeting of the State Federated Music Clubs.

MRS. ISHAM CUMMINGS IS HOSTESS AT BRIDGE

A beautiful spring time atmosphere prevailed at the home of Mrs. Isham Cummings 118 West Seventeenth street Thursday afternoon when she entertained at bridge. A color motif of salmon pink and green was found in the garden flowers for decorations and pots of geraniums used as center pieces for the ten tables which were afterwards presented to the guests making high score when time was called. A basket of sweet peas was presented Mrs. M. L. Lewis for the high score of the afternoon.

Beautiful strains of music from the violin played by Miss Lillian Strite, accompanied by Miss Mary Belle Harvey delighted the guests while being served to a delicious ice course by Mrs. Cummings assisted by her mother Mrs. J. L. Harringer. Mrs. C. J. Skirvin and Mrs. Thelma Shelton.

Those present were Meses. Barney, Drummond, P. S. Case, W. K. Chaney, W. Chaney, Becker, Blake, Weddle, Webster, Duncan, Griffith, of Los Angeles; W. H. Eby, Benton, Thompson, Gowing, Hager, Hale, Hunter, King, Lewis, Parker, Robbitt, Sparks, McKinley, Taylor, Wilson, Shelton, Skirvin, J. L. Case, Ott Reeves, West, Egan, Manville, Burton, Givens, Ham, Rodarmel, Moore, Raines, Burnham and Miss Frances Sharrett.

ZIMMERMAN CLASS ENJOYS OLD FASHIONED TACKY PARTY

About forty members of the Zimmerman class met in the parlors of the Methodist church Friday evening in an old fashioned tacky party. Every one unclothed apparel of a former period and the effect was a great variety of grotesque characters. Mrs. Tom Thomas and Mrs. L. J. Carpenter had prepared a most interesting program for the evening in the form of a "deed-strict school" track meet. Many of the field events were unique and clever. The forensic events brought out many accomplishments that were unknown even to the contestants themselves as well as hearty laughter on the part of the audience. At the conclusion of the program the score was apparently tied. "Possum Holler" district won a toss-up from the "Punkin Ridge" representative and was presented with a full quart liquid measure loving cup by the judges.

Following refreshments of sandwiches and coffee, Mrs. A. M. Bailey and Chas. Laseman were awarded the prize for the tackiest couple and the opinion was unanimous that they deserved it. Several members were conspicuous because of their absence in that they were responsible for having the party delayed from April first to April fourth.

THRILLS A PLENTY IN "THE LAST HOUR"

It is nothing new to speak of a thrilling scene in a motion picture. There are thrills a-plenty. One might even go so far as to say that if it were not for the "thrills" supplied as the most important ingredient in our picture fare, well, would there be any pictures?

"The Last Hour" which is coming to the American Theatre Monday answers this question in the only way it can be answered. It contains several thrills which are half-raised according to advance reports. However, critics have been unanimous in according to "The Last Hour" the most logical continuity of any picture these last several years. The thrills are necessary part of the story—to leave them out would be to destroy the story itself. In many cases a story which does not depend for its strength upon "punch" scenes is filled with obvious mechanical "thrillers" just to put the picture over.

"The Last Hour" comes from a story by Frank R. Adams. Some time ago it appeared in Munsey's Magazine under the title of "Blind Justice." One of the best directors in the business, Edward Sloman, directed the production and it is said to be his best.

Koreans Grow American Tobacco
SEOUL, Korea.—American tobacco, transplanted to Korea, is being cultivated with results said to be nearly as satisfactory as those obtained in the southern part of the United States. Particularly good crops are obtained in North Chosui province, just southwest of Seoul, which last year produced 3,712,000 pounds. About one-fourth of this yield was exported to China.

LIBRARY GROUPS TO HOLD MEETING

Sixteenth Annual Convention To be Held at Chickasha

(By the Associated Press)

CHICKASHA, Okla., April 6.—The sixteenth annual convention of the Oklahoma library association will open here at 10:50 o'clock tomorrow morning. The convention will continue through Tuesday.

Librarians will respond to the roll call by stating "my ambitions for the future of my library."

It is expected more than 100 librarians and book lovers will attend the convention. Headquarters for the association is in the New Chickasha hotel. Business sessions are to be held in the public library and the open meetings will be in the high school auditorium, the library auditorium of the city federation of women's club and the Christian church.

Addresses of welcome will be made by Judge F. M. Bailey, C. B. James and Mrs. R. K. Woodson. J. L. Rader, the University of Oklahoma librarian and president of the state association will respond. A reception for the visitors will be held Monday afternoon at the women's club. Dr. P. P. Claxton, former United States commissioner of education and now superintendent of public instruction, Tulsa, will make the principal address of the evening session. Mrs. J. R. Dale, secretary of the Oklahoma library commission will speak on Library Progress in Oklahoma.

Tuesday morning will be given over to the routine business of the association, including the election of officers and delegates to the convention of the American library association. Library problems will be discussed and plans of operation examined at the afternoon meeting with library trustees. A drive over the city and a visit to Oklahoma college for women will close the afternoon program. The college and the Chickasha chamber of commerce will be hosts at a banquet to the visitors Tuesday night and the convention will close with an address by Dr. Arthur E. Bostwick, chief librarian of the St. Louis library and a recital by the fine arts faculty members of the women's college.

The officers of the association are: J. L. Rader, Norman; Mrs. Cora Case Porter, Enid; E. C. Wilson, Ada; Miss Eliza Jane Rule, Chickasha and Miss Sara A. Noble, Tulsa.

Major McCormick Compliments Band Stationed at Ada

Maj. Chester B. McCormick, now of McAlester but who was stationed at Ada last year, was in the city Saturday afternoon between trains and while talking with a News reporter took occasion to compliment the 160th Field Artillery band stationed at Ada and directed by Fred Schreiber. The band was brought here on the recommendation of Maj. McCormick and he is well pleased with the progress already made and the promising outlook for the future.

There are four of these regimental bands in the state and Maj. McCormick says that none has anything over the Ada band. He expects to see a great advance by the 160th during the next two years and said he hoped the city would give the band every possible encouragement.

During the two weeks encampment at Ft. Sill during the summer the four bands will be consolidated and directed by Mr. Schreiber who is the senior director of the state.

A morning fog usually breaks away before noon.

Asbury Methodist Church Plans to Erect Building

Friday night the members and others met to hold their regular monthly banquet; every one present reported a good time, and enjoyed an excellent talk by Rev. J. A. Grimes, who was the speaker of the evening. His subject was "The Church, what it has done, and what we owe it."

Here are some of the plans for the future, as given by the pastor: First—the architect's plans for the new church were presented for the approval of the members. It was to be a modern bungalow type with basement and Sunday school annex, that will be the most adequately equipped building for a Sunday school in Ada for its size. This building will be under construction by the first of June.

A revival begins in this church May 11. O. F. Zimmerman of Naples Texas, better known as "Zim the Tither", Zim has just closed a revival at the First M. E. church at Shawnee.

Asbury Methodist church has been a back number in Ada, but we want you to not only watch us grow but give us a boost, we are going to build a church that the citizens should and will be proud of.—A Member.

Memorial Hall Is Paid Recognition By National Paper

Norman Howard post, American Legion has attained national recognition through the magnificence of its Memorial Convention Hall, erected to the memory of those who fought and died during the World war by the citizens of Ada.

The recognition was paid through the American Legion Weekly, the official national mouthpiece of the American Legion.

Last week's issue of the weekly gave considerable space to a picture of Ada's Memorial Convention Hall and an explanation of the purpose and erection of the edifice.

Ada legionnaires plan to use their edifice in housing the general assemblies and entertainments of the next departmental convention for Oklahoma in the Memorial Convention Hall.

SEACOAST PRIVILEGES AT G. O. P. CONVENTION

(By the Associated Press)

CLEVELAND, April 5.—Seacoast and orator-dwellers alike will have the optional experience of traveling all night on an inland sea, when the Republican National convention is held here beginning June 10.

Delegates from beside the Atlantic will be able to board steamers and snuff fresh water at Buffalo. As the boats slip toward Cleveland a horizon of watery expanse without a grain of salt in it can be viewed. Republicans from dry lands of the interior, where irrigated ditches in many places are the principal bodies of water, will view at Detroit a plain suggestive of the "big open places" they have left, but entirely liquid.

One of the largest vessels on the Great Lakes, with capacity for 3,200 persons, will be pressed into service earlier than for years. Its 500 state-rooms and twenty-four parlors will be at the disposal of delegates from the east. The company which operates it will have in service also two other boats, each having sleeping accommodations for 600 persons plying between Buffalo and Cleveland.

A second line will operate a fleet nightly from Detroit, holding two additional boats in reserve in case conditions warrant their use. This line will serve inland delegates. Railroads will be called upon to supply special trains for state delegations.

Let a News Want Ad get it.

Illiteracy Drive In County Takes Rest for Period

Efforts working toward the elimination of illiteracy in this county and district are slowing up at present but are those in charge anticipate a more enthusiastic campaign for opportunity schools at the opening of the next school year.

These opportunity schools were offered in this section for the first time this year instruction being given at no cost to those who had no education or whose training was incomplete. Teachers of the city and county donated their time to advance these schools.

Interest in the classes was great at the start and increased as results began to appear. Large numbers gathered for instruction which they had been unable to receive in former years.

Most of the opportunity schools of the district are closed but will reopen next fall.

Five Delegates to Attend Federation Music Clubs Meet

Ada will send five delegates to the convention of the State Federation of Music Clubs, which opens sessions Monday morning at Ponca City and lasts until Friday of the week. Four music students of Ada delegates will also be taken to the convention.

Two of Ada's delegates will appear on a program Thursday night on the Artists' Night number, Miss Lillian Strite and Mrs. W. M. Emanuel being scheduled to appear on the program.

Ada's delegates to the convention are: Mrs. W. A. Hill and two pupils, Mrs. W. M. Emanuel and one pupil, Miss Lillian Strite. Mrs. M. F. Munville and Mrs. Byron Norrell.

High School Band To Give Another Concert to Public

The High School band will give another concert in the Memorial Hall next Thursday evening, April 10, at 8 o'clock. A small admission charge will be made, the proceeds to go towards paying the expenses of a trip for the band to the University to take part in the state band contest.

This band under the direction of Prof. Hill, has been doing artistic work, and the last appearance was greeted by a full house. The appearance Thursday night is expected to draw even larger crowds.

The state contest will take place the latter part of this month at Norman.

City Firemen Now Cleaning Up Park On Twelfth Street

The city firemen have been engaged for the past two or three days in cleaning up the park in the East Twelfth street paying and in putting out flowers and shrubs.

This spot for a number of years was an eye sore to the city and was occupied mostly by the stray dogs of the town that used it as a home. However, the firemen took charge of it a few years ago, put out trees and shrubbery and have made it a real beauty spot.

Last year the Boy Scouts looked after the second of these parks.

DEMOLAY BAND PLANNING CONCERT; MAY GO TO END

The Demolay band is planning a concert before long. The exact date will be announced later.

The band hopes to make the trip to the state convocation which will be held in Eudora. To do this there will have to be raised some money. The concert is expected to raise the necessary funds.

Notice Confederate Veterans

Regular meeting of William L. Byrd Camp, U. C. V. this afternoon at 2:30 at city hall. A full attendance urged.—W. B. Cantwell, captain.

HOLDENVILLE TO PLAY ADA GOLFERS

Selected Ten from Holdenville Challenged for 18 Hole Game

The Holdenville Golf Club has been challenged for a match to be played on the local course on the 27th of April, according to officials of the local club. The challenge suggests that the Holdenville club select its ten best golfers to play against ten from the Ada club, the matches to go for 18 holes.

The greens and fairways of the local course are undergoing extensive repairs and it is expected to be in excellent condition long before time for the match.

Quite a bit of interest in the match has already been manifested by Ada golfers, especially since it became known that it was decided at a meeting of the club held last Monday night that the 10 players to represent the Ada club would be selected by a qualifying round to be played by all members just prior to the date of the match. It is too early to predict who will do battle for the locals, but if two weeks good weather can be had, it is safe to say that the Holdenvillers will have to meet a bunch that is shouting the hazardous local course in the early fields.

NOTICE AMERICAN LEGION AUXILIARY

A regular meeting of the American Auxiliary will be held in the convention hall Monday evening at 7:30. It is imperative that all members be present as business of importance must be attended to.

The district meeting will be held in Ada Saturday, April 12, beginning at 1 p. m. Mrs. J. P. Barrett of Ponca City, department president and the district president will be here besides a number of delegates.

BAND TO MAKE TOUR

East Central College band will make a tour of the northern counties of the district during the coming week. One tour, embracing the southern counties, has already been made and proved successful in advertising the work of the college.

Cambridge Defeats Oxford PUTNEY, Eng., April 5.—Cambridge University's varsity eight sprang a surprise today by defeating the heavier and more experienced Oxford crew in the 76th annual revival of their historic race on the Thames from Putney to Mortlake. The light blues won by about three and one-half lengths.

Five nations, France, England, Italy, Portugal and the United States, have immortalized an "unknown soldier."

Korean Foreign Trade in 1923 Exceeded all Previous Years

(By the Associated Press)

SEOUL, Korea.—The foreign trade of Korea for 1923 broke all previous records, reaching a total of 527,450,000 yen or 46,200,000 yen more than in 1922, the record year previously, according to official figures just published. Imports were slightly in excess of exports, 265,789,000 yen against 261,660,000 yen. The large total gain was due principally to increased exports of rice to Japan following the earthquake.

The United States is third in the list of countries selling to Korea, with a total of 11,172,550 yen, ranging after Japan and China. Practically all Korea's exports go to Japan, and the United States, fifth in the list of Korea's customers, is shown as having purchased only 99,000 yen worth.

POLITICAL ANNOUNCEMENTS

The News is authorized to announce the following candidates, subject to the Democratic Primary, August 5, 1924.

SCOUT EXHIBIT ENDS WITH MANY RECEIVING AWARDS IN EXCELLENCY IN SCOUT WORK

The Boy Scouts of Ada kept open house Friday and Saturday at the Pontotoc building with a display of the results of their various activities and handicrafts. About 300 exhibits of various kinds were on display ranging from a radio set on down the line.

The work of the boys covered a wide range. Several had built miniature log cabins, others had made bird boxes, rustic benches, chairs and other camp equipment. Some had made bows and arrows, fire sticks, polished cow horns and a variety of other small articles, all of it displaying considerable skill with tools. Some chickens, pigeons and a hawk were also among the exhibits.

Others brought collections of various kinds that they had been making. Among these were birds' nests, Indian arrow heads, different varieties of woods properly labeled and various kinds of stone, all giving evidence of the cultivation of the faculty of observation.

The event attracted a large number of visitors and keen interest was displayed in the exhibits.

Wealth of Exhibits.
A wealth of exhibitions ranging from collections of various kinds of the finest hand-made articles were on exhibit yesterday at the Pontotoc building on East Main, placed there by completing Boy Scouts of the county who had worked long and hard to win the ribbons offered for first places.

On entering the building a border of flags struck the view. Among these the national flag was prominent, with a variety of patrol emblems. The exhibits were grouped according to patrols and came from scouts from all parts of the county. Wandering about the building one could see that the scouts have acquired a remarkable knowledge of the natural science of this county. An astonishing number of varieties of woods was on display, some of them not at all familiar to the casual resident of Pontotoc county. Bird nests showed that the county has species galore of feathered inhabitants, easily recognized by the boys who are engaged in scout work.

Camp equipment, in miniature and actual size, showed conclusive evidence of the ability to take care of themselves of the scouts. There was demonstrated a number of comforts not usually associated with camp life that accounts in part for the eagerness shown by Pontotoc county scouts to make their annual camping trips.

Many Features Seen.
Some of these were: drinking cups constructed from tin cans, chairs and other articles of furniture made from what would be handy to a camp. A surprising number of ways to make a fire were demonstrated, including the instruments for building a blaze without the aid of matches. A fine canoe was on exhibit.

Bird houses held a prominent place in the display. Feathered visitors may well be attracted to the neat homes offered them by scouts who know their value and are interested in studying bird life. The houses range in construction from lumber wood to homes made entirely of rustic materials. One house contained 29 different woods found in the county.

Skill in knot tying was displayed in exhibits of about every knot known to man, tied with skill and thoroughness. Snapshots of the life of the county showed excellent knowledge of the camera, which has become a great aid in scout study. Making their presence known vocally were a number of fine chickens, owned by scouts. A large hawk blinked calmly at the visitors.

The entire exhibit was characterized by neatness and skill. Some of the articles on display had required many hours of work to complete, while others showed how rapidly the scouts can accomplish a number of things required in their work. The county organization may well be complimented upon the quality of work on display.

In the scout program rendered Friday night by Ada troops, many of the fine arts of scouting was revealed to the visitor. A general stunt program was offered for the entertainment of the scouts and their guests. The feature event of

When the accident happens

In hospitals only sterile dressings are used. Your doctor, too, always uses sterile gauze and sterile cotton.
When the little accident happens you will be equally careful!
Your home should always be prepared for the little accidents with sterile absorbent cotton, sterile gauze, and bandages and adhesive plaster. The cost is small.
We sell Bauer & Black dressings because the name Bauer & Black is a guarantee of safety. Because every package is marked "sterile," meaning that the contents not only were "sterilized" during manufacture but are sterile now.
We sell Bauer & Black products because they are the choice of thousands of eminent surgeons and physicians—because it is part of our service to you to take no chances with the goods we offer you.

GWIN & MAYS

OIL NEWS

The American Oil and Refining company has a new location in the center of the southwest quarter of the southwest quarter of section 9-4-6 on the Bathrop farm and will be known as Bathrop No. 3.

This well is a half mile north of the Stark No. 2 which is good for 25,000,000 cubic feet of gas daily. A rotary outfit will be used, which means that it will probably not take long to put the well down, at least to the gas sand.

The new well will be of great importance as it will have a bearing upon the outlook for more drilling between Ada and Byng. Other predicted wells between Ada and the river may wait until this one has been completed.

Hughes and others are under-reclaiming in sec. 28-4-7 to set their casing above the gas sand encountered at 500 feet. Judge Hughes believes the well is good for from three to five million feet of gas, and it may be that no more drilling will be done. However, he thinks he shall probably drill a small hole to the sand and go on down with the present hole.

The Lloyd well in section 6-2-7 is drilling at 630 feet.

Bowles and others are still waiting for casing in section 34-5-6 at 1200 feet.

LaSelle is shut down with the tools in the hole in section 31-5-5 in the Debee district. This is the well that reached the sand at about 1900 feet and looks like a good producer. The tools and part of the cable are in the hole.

The Empire is about ready to start drilling on the test in section 4-3-7, near Stonewall.

T. B. Slick No. 1, Anderson in the southwest of the southwest of section 18-6-7 is drilling at 2,000 feet, making good headway.

Charles Wesley West and Link Oil company, No. 1, Carolina in the northwest of 14-6-7 is having casing trouble at 2,280 feet.

Maxwell and Harvey No. 1, Hensley in center of northwest of northwest of 23-6-6, drilling at 1,000 feet.

Helman and Rosback, in northwest quarter of 4-5-5, is shut down waiting for examination of titles to some of the properties.

The McDougal well in section 20-6-7, just across the Canadian river, is beginning to look like a probable oil well.

A gas sand was reached last Sunday at 2668, with 160 feet of open hole. Drilling was stopped immediately and underreaming begun. With the hole making about three million feet of gas, the casing was set and everything made ready for drilling in Saturday. The gas sand proved only about eight feet thick, but at 2675 an oil sand was picked up. With this penetrated only two

Frisco Papers Hang Hick Town Title to Ada

A concerted but friendly protest is being talked against the continued linking of Ada as a hick village in the sport sections of the San Francisco papers by local fans, who have followed with interest the feats of Guy Williams and Paul Wauer, Ada's contribution to the San Francisco Seals of the Pacific Coast League.

Williams, the latest protege from Ada to set the hearts of San Francisco fans apace, has been off referred to as the kid from Ada, the village in the Oklahoma wilds.

The brunt of small town newspaper talk was tacked to Ada thru Wan last year and furthered this year by the feats of Williams.

Ada has been referred to on numerous occasions as the "one horse" town and A. O. Green, manager of the Ada Independent club, artly referred to as the owner of the town drug store.

Despite the fact that a telegram or correction was sent from local fans calling attention to the fact that Ada figures considerably on the map of Oklahoma, writers continue to hinge their comments on the village of Ada.

Whether village or the future city of Oklahoma, Ada shares honors alone, so far as Oklahoma is concerned, in the comments of the San Francisco sport writers, local fans admit.

McKEOWN WILL RUN AGAIN SAYS W. W. PRYOR

"Tell my friends that my announcement for re-election will be made in a short time," is the word brought back from Washington from Congressman Tom D. McKeown by Hon. W. W. Pryor, who returned from the capital city the later part of the week. Mr. Pryor states that he found Mr. McKeown "swamped" with work and that because of pressing business matters he had given the question of re-election very little thought. Several important measures in which Oklahoma is specially interested are being finished by Mr. McKeown and it may be some weeks before he will be able to get away from Washington even for a brief

You can make these Dresses yourself

Visit our Dress Goods Department. We have a wonderful showing of new fabrics. There are voiles, the new silk and cotton crepes, organdies, ratines, linens, tissues and many novelties that you should see.

Announcing Our LaPorte Novelty Fabrics

Unusual and interesting designs in novelty fabrics lead the way for Spring, 1924.

From the LaPorte Woolen Mills comes a wealth of these novelty goods.

Fancy ratines, knotted effects, combinations of ratines with voiles and silks, sheer and semi-sheer fabrics, silk and wool novelties are among the leaders.

Select the materials for your dresses now from our LaPorte line, before the patterns you want are sold.

A Special Showing of Lovely Fabrics for the June Bride

The bride whose trousseau is made at home will have need of many materials for her dresses, negligees, chemise, princess slips, underwear, gowns, etc.

You will find here a wonderful assortment of shimmering silks and satins and the less expensive fine cotton materials all in white or very delicate tints.

Come in soon and see these beautiful new LaPorte materials which are especially suited for the June bride's choosing.

Less Expensive Material for Vacation Play Clothes

Among our selection are fine percales, suitable for little boys' waists and suits, also nice for the darker play clothes for little girls. We have a special lot of gingham and chambrays at 25c per yard.

Lingerie Lace Cloth

A very fine, sheer cotton fabric with threads of silk forming a tiny check, makes this material ideal for lingerie. It comes in pale pink, peach, orchid and white at 50c per yard.

For the Sweet Girl Graduate

Girls! Dresses of white are in high vogue this season.

What could be more appropriate than soft, drapery silks, or crisp, dainty organdie in shimmering whiteness for graduation?

You want your graduating class to be the outstanding class of 1924, and the charming dresses the girls will wear add distinctiveness to your group of graduates.

Besides all the lovely white silks and organdies, we have them in all the delicate tints—any of these shades will harmonize with the flowers you choose.

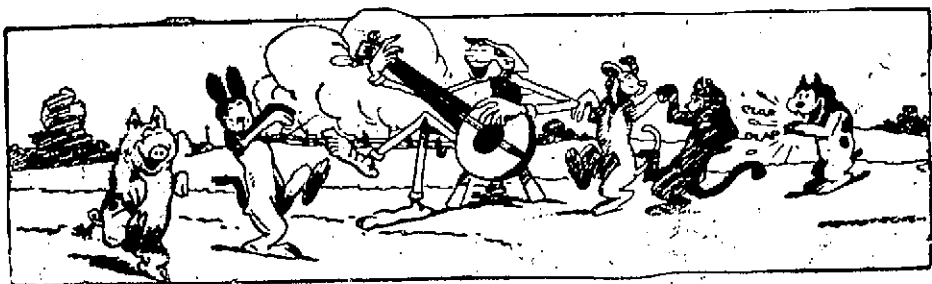

It's LaPorte fabrics you want for your graduation clothes.

CHURCHES

YOUNG WOMEN'S CLASS

AT AMERICAN THEATRE
A special invitation is extended to all young ladies to attend the class at the American Theatre at 9:45 this morning. Special music will be a part of the program. Prof. J. E. Hickman is teacher and always has an interesting and helpful message. You will enjoy the hour.

Presbyterian Church Notes.

Sunday school at 9:45. Hugh Norris, Supt.
Communion services at Eleven o'clock with the pastor, E. O. Whitwell officiating. Special music program of violin, voice, orchestra and choir. Mr. Fred Schreiber director. Miss Helen Reubens of the college will sing.

Evening services will have the young people's choir and orchestra under the direction of Prof. Cudd of the High school faculty. The pastor will have a message for the young and old. You are cordially invited to attend these services.

Oak Avenue Baptist Church

Sunday school will begin at 9:45 a. m.
The preaching service will begin at 11:00. The subject for the morning sermon will be "Sleeping Christians." Text: Matt. 26:10.

The Sunday band will meet at the church at 2:30 Sunday afternoon.
There will be preaching at the church at 3:00.

John Miller who was reared in the Baptist Orphan Home at Oklahoma City will conduct the service. He is the only member of this home who has aspired to be a preacher. He is now a student of the Baptist University of Shawnee. Be sure to come and hear the message of this young man.

B. Y. P. U. will begin at 7:00 in the evening.

Preaching service will begin at 8:00 p. m. The subject for the evening service will be "The Scriptural Requisite for a Clean Life." Text: Prov. 4:23.

The W. M. S. will meet at the church Monday afternoon at 2:30.

Prayer meeting at the usual hour, Wednesday evening. All members are urged to show their interest in the work by attending these services. Visitors are welcome.

JOE B. RIVES, Pastor.

Senior B. Y. P. U. First Baptist Church

Subject—Devotional meeting. Why should I go to church. Psalms 100 and 122.
Bible Quiz (Luke 7:36 to 9:62) by Mr. Wilmoth.

Leader—Lillie Wauson.
Introduction and Bible background—Leader.

Church attendance and intelligent faith—J. L. Kennedy.

Cultivating Christian Feeling—Pearl Veary.

Giving testimony to the Truth—Zuleka Burkhardt.

A habit which Jesus had—Jewel Erwin.

A habit which brings blessings—Mr. Wilmoth.

Vocal Solo—Mr. J. C. Treadwell.

All young people are urged to come for—

"A Sabbath well spent
Brings a week of content
And strength for the tasks of tomorrow."

But a Sabbath in vain,
What were its gain,
Is a certain forerunner of sorrow."

Christian Science

Christian Science services are held at 11 a. m. in the Christian Science reading room, room 5 of 100 1-2 West Main.
Subject: Unreality.
Golden Text: Jeremiah 3:23. Truly in vain is salvation hoped for from the hills, and from the multitude of mountains; truly in the Lord our God is the salvation of Israel.

The reading room is open on Wednesday and Saturday afternoons from 1 to 5 o'clock and contains Christian Science literature for free distribution.

All are invited to attend services and to visit the reading room.

W. H. M. S.

Regular monthly business meeting at church next Monday afternoon at 3 o'clock. All members urged to be present and visitors welcome.—Mrs. Harry Deering, president.

St. Luke's Protestant Episcopal

109 East Fourteenth
The Rev. Charles L. Widney, in charge.

The Fifth Sunday in Lent (Passion Sunday.) Church school at 9:45. Holy Communion at 11.

The St. Luke's Guild will hold their annual Pre-Easter sale on Saturday April 12, beginning at 10 a. m. Members of the congregation and friends are asked to support it by their presence. The sale will take place at Hensler & Smith's Drug Store.

First Baptist Church

Sunday school meets at the First Baptist church at 9:45 a. m. Mr. J. A. Riddling, is the general superintendent and Mr. D. W. Swaffar, general secretary. We have classes for all ages and you are cordially invited to attend. We had a total attendance last Sunday of 714. There was an attendance at the West Side Mission of 68 making a grand total in all of Sunday schools of 782.

The Men's Bible class meets at the McSwain theatre at 9:30 a. m. Mr. J. C. Hynds, president, and Mr. L. A. Ellison will teach the lesson. They had a total attendance last Sunday of 327. We are very anxious for all of those who have been attending to be present again this Sunday, as plans will be laid for a contest between the Women's classes and this class.

PONTOTOC COUNTY NEIGHBORHOOD NEWS

FITZTUGH

There was quite a sand storm here Friday night but it didn't do any damage.

Miss R. E. Wesson spent Thursday night with Esther Jones.

Mrs. Roy Easley of Lawrence spent Tuesday with Mrs. Floyd Henry.

Mr. Braseton and family, Mr. Brooks, and family, Mr. Watson and family, and Mr. Hargis took supper at Lawrence Thursday night.

Bro. A. Richardson held preaching services Sunday and Sunday night.

There will also be preaching Sunday morning and Sunday afternoon by Rev. Stegall. Everyone is invited to come.

Miss Susie Henry spent Thursday night with Mrs. Floyd Henry.

The literary Tuesday night was very much a success and enjoyed by everyone.

The party at Esther Jones' Thursday night was enjoyed by all present.

Mrs. Leonard Murdock spent the week-end with her husband, at Stillwater.

Paul Fussell spent Thursday night with W. A. Oliphant.

Miss Willie Nichols was on the sick list Sunday.

We were much disappointed Sunday night on account of Hickory not getting to render their program. We hope they will come back and put it on. We extend them a cordial invitation to come any time.

Miss Lura Oliphant spent Sunday with Opal Thompson.

Messrs. Bob and H. E. Miller, and Roy King of Hoff were visitors here Sunday afternoon and Sunday night.

Misses Deryl Simpson and Alta Simmons took supper with Georgia and Jewell Thompson Sunday night.

The ball game between Lawrence and Fitzhugh came out in favor of Fitzhugh 15 to 6.

Miss Opal Thompson took supper with Ethlyn Nance Sunday night.

Mrs. Bill Williams spent Sunday with her mother, Mrs. M. D. Pine.

Misses Susie Henry, Esther Jones, and R. E. Wesson took dinner with Willie Nichols Sunday.

CURLY LOCKS

The farmers are all busy planting corn. Some have already finished planting.

We had quite a hard wind and sand storm here last Friday afternoon and night but no serious damage done.

W. R. Dennis was kicked in the face by a mule, several days ago and very painfully injured. However, he is getting along nicely now.

Leota Leonard has about recovered from an attack of measles.

Dr. G. H. Traux is improving from his recent attack of rheumatism.

Mr. and Mrs. A. T. Wardlaw have a baby girl at their home who arrived on the 29th of March. The little lady has been christened Ruth Elba.

Mrs. John Thompson has sufficiently recovered to be able to return to her home from the Ada hospital where she had been for the past week.

Ira Gilstrap injured his back last Saturday while lifting a log and is suffering considerably from the hurt.

Miss Jessie Mae Cochran spent the week-end with her mother, Mrs. C. L. Cochran at Ada.

Mrs. Duard Thomas and children of Stonewall spent the week-end with her parents, Mr. and Mrs. B. N. Sallee.

Mrs. W. H. Gray and son Billie spent the week-end with her sister, Mrs. Joe Lee.

G. W. Cawyer was in Ada on business last Saturday.

G. L. Babb and H. C. Hoyle were in Ada Saturday.

Mr. and Mrs. Schley Stegall of Oklahoma City are here on a visit to her parents Mr. and Mrs. J. W. Thompson.

Mr. and Mrs. W. L. Chappel and son David of Atoka visited the family of J. A. Durban last Sunday.

Mrs. (grandmother) Massey has returned from a visit to her daughter at Ardmore.

Miss Jewel Thomas is at home from Ada where she has been attending school.

L. L. McClain spent the week-end with homefolks.

Mrs. J. W. Mobley was shopping in Ada last Saturday.

The steel derrick for the test well here is about completed and drilling will commence in a short while.

The fishing season seems to have opened up here and some are quite successful in catching the finny tribe. Mr. Fox caught 4 one night weighing three and four pounds each.—An Old Timer.

VAN OSS.

Farmers are very busy now. Many are planting corn or preparing to plant.

Mrs. Farmer is making garden and caring for the little chicks, while the "Little Farmer" is working over time trying to keep up the home duties and get ready for examination by the last of school.

Mr. and Mrs. Paul Sturdevant have moved to Ada. We surely are sorry to see them go as they are badly needed by our community. Mr. Sturdevant has been in the postal service here for sometime. We hear he is taking up similar work in Ada. Mrs. Sturdevant has been teacher of the primary grade in our school for some time. And as a teacher she has been very successful, gaining the sincere admiration and respect of all the pupils of the entire school as well as fellow teachers and patrons.

Miss Bertha Gaar is taking up Mrs. Sturdevant's work in the school. Miss Gaar is well known here, her home being in this district.

Miss Bolen was unable to teach Monday. Her place was supplied by Miss Florence Owens.

James Walters and Miss Leah Bradley have entered the Ada normal.

Mr. and Mrs. J. B. Owens have returned from Wolf City, Texas, where they were called by the serious illness of their son Fred. They left him greatly improved.

The little son of Mr. and Mrs. L. A. Thomas is quite sick.

Ray Stegall spent Saturday night and Sunday with his parents.

Little Inez Griffith who has been attending school at Ada is at home now and has been quite sick of measles, but is improving rapidly.

Sunday school attendance was good last Sunday. Let's make it better next Sunday.

COLBERT

We have received our superior Model School certificate, of which we are justly proud.

The Boy Scouts set out some more shrubbery, Monday in the school yard. Chesley Madden also brought 20 rose cuttings from his home.

Mr. and Mrs. J. N. Hammonds were visited Sunday by their daughter, Mrs. Nichols, and husband of Hoff.

Mrs. Luther and daughter, Miss Roxie of Ada spent Sunday with Roy Luther and family.

John Coventon and family spent Sunday with Mr. and Mrs. Sales.

Mr. and Mrs. D. S. Chestnut spent Sunday with Mr. and Mrs. Green Floyd.

Mr. and Mrs. Watson and Mrs. Whit of Ada visited Mr. and Mrs. Jackson Sunday.

Marie Chestnut spent Sunday with Viola Tennyson.

Ben Rowlett and family spent the week end with relatives at Hoff.

Mr. and Mrs. Earnest and family visited relatives at Steedman Sunday.

Mr. and Mrs. Douglas of Ada, have been visiting her parents here Mr. and Mrs. J. B. Sanders.

Mr. and Mrs. Bernon Anderson of Ada called on Mr. and Mrs. W. W. Jones and daughter Sunday afternoon.

Frank Smith and family spent Sunday with relatives in Ada.

Several from here attended church in Ada Sunday.

Phillip Richmond and family of Ada, spent Sunday with his brother S. J. Richmond.

Frank Smith has a new Ford.

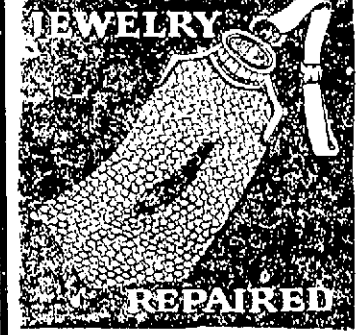

The Boy Scouts are preparing some things for the exhibit which is to be held the last of the week. Every body come to Sunday Sunday.

UNION VALLEY

On account of the bad weather we have not been able to pay back the basketball games but hope to in the near future.

We are going to stage the play titled "The Finger of Scorn" on Monday.

Friday night. Everyone come and ring someone with you.

A large crowd attended the school meeting Tuesday afternoon. Lee Blackwell was elected board member in the place of F. F. Falter. Ten mills were voted and a nine months school. We want to thank the patrons of this community for their support.

Mr. Newland, the section foreman, called a meeting after the election to see how many of the patrons were in favor of the switch and flag station on the Katy line one mile north of the school house. Most everyone was in favor of it. We expect the switch to be put down with in sixty days. It will be a great benefit to the community.

The Parent-Teachers meeting will be held Friday night, April 4. A program will also be given.

Miss Zelma Ennes of Ada is visiting her sister Miss Lola Ennes of this place.

Miss Mary Ellen Hatcher who is attending school at Ada spent the week-end with homefolks.

Misses Mae and Habel Carmichael and Nora Dillard were in this community Sunday.

Miss Catherine Brock spent the week-end with homefolks.

Mr. and Mrs. J. R. Hughes, Mr. and Mrs. Jim Anderson, and Mr. and Mrs. Lee Blackwell attended church at Owl Creek Sunday.

Mrs. Durbin took dinner with Mrs. Brown Sunday.

W. J. Anderson has purchased a new Ford car.

Stamp Collectors Bankrupt
Somaliand Post Department

LONDON.—The fact that stamp collectors apparently are overstocked, for the moment, with the issues of Somaliand, has brought about a financial crisis in the affairs of the postoffice department of that country. In explaining that the department was insolvent the official

in charge said the revenue for 1923 was \$6,100, a decrease of \$9,310 over the previous year, "due to the demands of philatelists being satisfied." The government expects to bring out a new issue of stamps this year.

BIBLE THOUGHT FOR TODAY

MASTER, THIS WOMAN was taken in adultery. Moses commanded us that such should be stoned: but what sayest Thou? . . . He said unto them, He that is without sin among you, let him first cast a stone at her.—John 8:4, 5, 7.

GERMANY PREJUDGING DAWES.

It is not surprising that Germany's attitude toward the Dawes report is like that of the irate little girl who was quarreling with a schoolmate and sought to put an end to the discussion by remarking, "I don't know what you're going to say, but whatever it is, 'tain't true!" Germany's policy since the war has been to save as much as possible out of the wreck, and to use any method that would help to achieve this end. Part of this plan has been to pretend inability to pay. From this it stands to reason that any settlement proposed by the Allies imposing unpleasant obligations on Germany must be met with loud protestations. Whatever the solution offered, it is obviously Germany's interest to object, in the hope of scaling down what she must pay.

There is one ready answer to these tactics—the presentation of a united allied front. The world is disposed to accept the findings of the Dawes committee with a spirit of finality which it has not shown toward previous efforts. Hence the moral sentiment of Europe may be brought to bear upon the German people through many different channels. Furthermore, there are indications that this will be well backed by economic pressure, inasmuch as the bankers and business men of Europe are only too anxious to support any practical settlement which promises general reconstruction.

The fact is plain that the world is sick of constant haggling and delays in this business. Unless something constructive is done within the year—unless, as General Dawes put it in his opening address, "common sense is crowned king"—the result may be disastrous. The world in general still holds the views expressed by the Germans when first the Dawes committee was announced—that here is an impartial body capable of offering a practical solution for some of the problems, and that it can contribute much toward the rehabilitation of Europe. Nothing has come up to alter this opinion.

It does not follow that the Dawes committee is infallible, yet it represents the latest efforts of the Allies, aided by Americans and cooperating with German leaders, to find a settlement which, at least for a period of years, promises peace and reconstruction in Europe. This, as a matter of fact, is in the interest of the Germans as well as of the allies.

—New York Times.

CHURCH NEWS.

Many comments have been made about the quantity of church news carried by The Ada Evening News. Most of the comment is favorable, but a bit of it is not. On the whole, it seems to meet with the approval of the readers, and when it does that our services are paid for.

The News, together with many large newspapers with an idea of service, recognizes that churches and schools afford news the same as courts, jails, political conventions and other institutions or bodies of organized society. The work of the Sunday school teachers is interesting, or should be interesting, the same as the escapades of a desperado or the disreputable acts of a brazen woman, though in an entirely different way.

Church news and school news reflect the activities of the best elements in the community and to exclude this from a newspaper is to leave the news lopsided, a thing many newspapers in the past have been guilty of.

Religion is one of the essentials of life. Every man is interested in religion. The chances are he will not agree with you on some of his religious beliefs, but all the same he is interested in religion and in what religious bodies are doing.

We make no apology for giving religious news, but on the other hand take pride in the fact that we are giving even better service than most newspapers give.

How time changes things in America is well illustrated by an anecdote by a society writer of Washington. According to her story, some years ago Mrs. Calvin Coolidge, then a teacher in a school for deaf-mutes, brought a number of her little charges to the White House. Owing to their infirmity it was slow work to explain things as they went along and their visit was prolonged until the doorkeeper lost patience and asked her to take the children and go. When she next came to the White House it was as its mistress and the doorkeeper was still there.

In opposing the Johnson bill to restrict foreign immigration Senator Walsh of Massachusetts submitted a very powerful argument in favor of it in the form of protests from 40 or 50 organizations all of which are made up of foreigners. Congress is slow about disposing of the immigration question, possibly because so many members have a large foreign voting population in their districts. It has long been a habit to give the foreigners first consideration because the Americans are easy marks and will stand for almost anything.

THE KEYNOTE SPEECHMAKER.

The political calendar advances with the advancing season. With the announcement of dates for the holding of state conventions for the naming of delegates to the national convention, comes a call for keynote speechmakers, those spellbinders who, possessing the requisite credentials attesting their regularity as members of the dominant political factions, are preparing to launch the candidacy of favored leaders or favorite sons. It will be a time of magnificent oratory. Again the welkin will be made to ring. The faithful will gather to resolve, to view with becoming alarm, and to point with pardonable pride. Those who listen and those who read will hang with some degree of interest upon the words spoken. What will they be told?

It is announced that in New York that Charles Evans Hughes, secretary of state in President Coolidge's cabinet, will preside as temporary chairman at the state Republican convention, to be held in that city on April 15. On the same day the Democrats of the state will hold their convention at Albany. Mr. Hughes is an eloquent and persuasive speaker. No one could more auspiciously launch the candidacy of any aspirant for presidential honors than he. But the apprehension persists that every keynote speech written and delivered during the early days of the campaign which is about to begin must be prepared without regard to formulas previously used. New phrases must be coined and new periods and studied pauses evolved. At the end of inspiring paragraphs where parentheses formerly marked (long and continued applause) perhaps interrogation points will be inserted.

Perhaps it is in summarizing these accomplishments that the political spellbinder of 1924 will encounter his greatest difficulty. Actual accomplishments in the way of constructive legislation have been few. Disclosures and telling of half truths have confused the ordinary student of affairs. Lines formerly distinctly drawn have become dim and hard to follow. There is need, if the leaders of any party are to attract to themselves the unqualified support of the thinking masses, that the truth be told so plainly that there can be no misunderstanding.

Are the keynote speechmakers courageous enough to tell the whole truth? If it is not told, the confidence of the people cannot be gained. The cleansing processes which have been begun at the national capital cannot be abandoned now without the danger of inflicting grave hardships upon the innocent. Generalization will not suffice. The issues upon which former national campaigns were fought cannot be revived to enthrall the rank and file now. There are really vital things to be considered and discussed by those who would lead.—Christian Science Monitor.

ENCOURAGE THE YOUTH.

This week and next Ada will entertain the participants in the county and district track, field, and literary meets. From every nook and corner of the eleven counties they will flock to Ada to take part in the many contests. Probably five hundred will be here this week for the county meet and five times that many the week following.

Not long ago we heard a man make the remark that when he made his pile of money he was going to move to a school town and take an interest in every activity of the youth of the college. His idea is that a person doing this will feel younger, have better health and live longer than he would under most conditions.

The contest in hand is the main thing in the mind of the child. To him everything else pales into insignificance. When he is engaged in these contests, he likes encouragement. He wants to see others interested in him.

Thus Ada citizens have an opportunity to encourage the young boys and girls and at the same time feel better themselves if they will attend the various contests and enter into the spirit of the thing. What is more thrilling than to watch a flock of well formed youths make a hundred yard dash? It will make you forget the quarrel with your wife or the fact that the biscuits for breakfast were burned.

It is reported that Turkey, having killed off or deported most of the Armenian population and driven out the greater portion of the Greek population, suddenly finds cause for alarm from another source. This time it is an influx of Arabs who are leaving regions held under British and French mandates. The Arabs are an independent lot and no respecters of person, hence the Turks are not feeling very comfortable to have these fearless sons of the desert moving within her boundaries. Deporting them or attempting a massacre might lead to unpleasant consequences. The prophecy made to the mother of Ishmael that his hand should be against every man and every man's hand against him still holds good, as all races who have come into collision with his descendants have learned by bitter experience.

The News is glad to see the First Christian Church congregation begin the erection of a house of worship. The building will be located at one of the most important corners in the city and will make a beautiful connecting link between the business and one of the residential sections. More than that it will afford room for this fast expanding congregation and the good work that is being done. We hope that they will have little difficulty in completing the program and that it will be only a few years until they will have to enlarge the new building, large though it will be.

The most obnoxious type of pest we know is the fellow who thinks he knows everything worth while and insists on forcing his views on other people in season and out of season and is intolerant of the opinion of others. Claiming the widest latitude for his own views he refuses to see that others have the same right to their opinions that he has and always attributes sinister motives to those who do not agree with him. We find this guy everywhere, in politics, in the church and in all organizations. He is a hard customer to deal with, although thoroughly detested, for nothing short of a club impresses him.

Milk is one of nature's greatest gifts to man. We do not use it as often as we should; but more and more the world is coming to see and realize the necessity of using it for the sake of health and energy.

TULSA POLO SEASON OPENED WITH PRACTISE

(By the Associated Press)

TULSA, April 4.—The polo season for Tulsa has been opened here with a practice match between the Tulsa Polo and Riding Club team and the Belmont Hunt club. This is the first year in which Tulsa has ever indulged in the sport and indications are that a large membership will be enrolled in the clubs by summer.

Henry Miller, former cavalry officer, is training the local teams. Most of the players are wealthy oil men who find the sport a pleasing hobby. Forty mounts have been placed at the club's barns, located in a picturesque setting on the banks of the Arkansas river, and about 20 more are expected next week. A new stable is being built to accommodate them.

Outfits have been ordered for all players and scheduled matches will be announced for the summer. Most of the men are new at the game. The local field has not been put in condition yet and the amateurs find the going rough on hard ground.

Tournaments will be scheduled this year with teams at El Reno, Oklahoma City, Fort Sam Houston, Fort Riley and Kansas City. Miller has announced. These matches will not be made, however, until the local players have become more adept at the game, he added.

Much interest has been shown in the new sport and at the first match the field was surrounded with spectators. All the members of the clubs own their mounts and most of these

are green at the sport. Some of the finest horses obtainable have been brought here for the polo clubs.

PICKETT

The eighth grade had an average of ninety-nine per cent in attendance this month, being the highest in school.

We are building a summer house for the primary children this week. Edmond McGee is on the sick list this week.

Mr. Miller met with the Boy Scouts Friday evening and gave them a test. There were only three who passed.

The Sunday school has organized a class for the Boy Scouts.

The young peoples society meets on Saturday night. They changed the time at the last meeting.

Mrs. Clyde Meek has a very bad case of measles.

Mrs. Grace's daughter from Amarillo, Texas was visiting her the past week.

Buy it—rent it—sell it—find it with a NEWS WANT ad.

JENA, Thuringia.—Frau Emily Reute, who recently died here at the age of 80, was the sister of two former sultans of Zanzibar and was born Princess of Oman and Zanzibar. Her husband was a Hamburg merchant who was in trade in Zanzibar and married her there long before Zanzibar was given by Germany to the British in exchange for Heligoland.

Record of Car Expenses Saves in Several Ways

The motorist who doesn't keep any record of his car expenses stands to lose in a variety of ways, but now he's out of luck. These gas taxes which he has been paying in many states may be deducted from his income. The same with state license fees. These are state taxes, and are accordingly deductible. Where the car is used for business the cost of ordinary upkeep charges and fuel is deductible, since it is an expense of running the business. Where the car is used for both business and pleasure the cost should, of course, be apportioned. But all this is like the Greek language to the car owner who simply pays out and never keeps a record of expenses. To those who keep records in a half-hearted way, or who think it might be advisable to try, it isn't anything at all when you do it in installments.

Hoboes Now Avoid New York.
NEW YORK.—The hobo is becoming extinct along the sidewalks of New York. A check-up by welfare societies of the "flophouses" on the Bowery and other favorite haunts of the genus bears out the statement.

The Hobo College, famed as an East Side hostelry for those of the roving nature, is still open to the public, but its registry cannot boast the records it used to.

Reasons advanced for the growing scarcity of the tramp are that he can no longer successfully meet both the demands of his conscience and those of New York employers.

FEW CAR OWNERS KNOW STEERING

Reasons Why Auto Is Hard
or Easy to Handle Are
Given by Prof. Greer.

(By ERWIN GREER, President Greer College of Automotive Engineering, Chicago.)
The average motorcar owner probably will be surprised to be told that he doesn't know what really good steering means. The reason is that so many factors contribute to helping or hindering the easy guidance of the modern car that many of them are entirely overlooked by most owners, and the result is that they consider satisfactory steering what is in reality very far from perfect.

To begin with, it is important that the front wheels should be properly aligned if the car is to steer with maximum ease. Now all wheels are cambered and tied-in to a certain extent. The amount varies with different cars, but the owner should take pains at least twice a season to see that his wheels are properly aligned.

Improper Alignment.
Any time that the car is involved in a collision of any kind, even if it is with the curb, the wheel alignment should be checked up. Improper alignment results not only in hindering the steering of the car, but in excessive tire wear.

If the alignment of the wheels is found to be incorrect, it may be altered by manipulation of the tie rod. This latter is the rod which runs from one steering knuckle to the other, and which has a movable portion at either end. Hard steering is often caused by misalignment of the front wheels through an error in the tie-rod.

In most steering systems the slack which develops may be taken up in two or three different places. The car owner should find out, to begin with, where the wear is greatest, whether in the gears at the bottom of the posts, in the ball joints or in other parts. A good beginning may be made by gripping the tie rod and moving it back and forth, thereby detecting play in this part, if it exists. Perform the same operation with the drag link or rod connecting the steering arm with the front axle. The ball joints may be adjusted by means of a nut which is located in the back of the spring.

Adjustment Provided.
To do this remove the center-pin, turn down the nut, insert the pin again and the job is done. If the play is in the gears there is usually provided an adjustment, placed just above the case in which the gears are housed. As a general thing it takes the form of a serrated nut, which is held in place by a slotted pin. The pin must be removed with a screwdriver, the nut being turned slightly, after which the pin is replaced. Each time the nut is turned it is well to try the steering wheel to see that the adjustment is having the desired effect.

Steering knuckles are held in place by a pin, on which the knuckle turns. If lubrication of this pin is neglected, excessive wear will result. There are a number of different types of steering knuckles in common use. All of these have bearings, and most of them employ bearing bushings. Replacement of these bearings is frequently necessary when excess play develops in this part. It is not too much to say that daily lubrication is essential to the continued life of the bearing.

NEXT FRIDAY TO WITNESS INFLUX OF CONTESTANTS IN ANNUAL COUNTY TRACK MEET

Friday, April 11, will see the gathering in Ada of school boys and girls from all parts of the county to participate and watch the annual county track and field meet which will begin Friday afternoon. The session will open at two o'clock of that day in the college auditorium with preliminaries in Arithmetic, piano, declamation, and reading for classes A and B.

The second general session will open at 7:30 p. m. of Friday evening at the Convention Hall with finals in chorus and oratorical events for all three classes of contestants. Saturday morning will see the events in spelling, penmanship, tennis run off, track events in class C held, and baseball begun.

Practically every school in the county will be represented in the meet, according to County Superintendent A. Floyd. Entries for all events are coming into his office rapidly and include full lists of contestants.

This meet will bring to Ada probably a much larger crowd of visitors than in the past, due to increased interest in such activities and to an enlarged list of events. Contestants are divided into three classes to encourage the smaller schools to take part in the gathering.

The winner of the three classes will receive attractive loving cups, now in the keeping of Mr. Floyd. In addition to the cups to the winning schools, individual point winners will receive gold, silver and bronze medals or blue, red or white ribbons depending on the class of event. Pennants will also be given to chorus, tennis, baseball, and relay winners.

Mr. Floyd states that the prizes will all be on hand by the time for the meet and that they will be delivered to the winners at the end of the contests.

High schools offering four years of work compose class A. All other high schools will be in class B and grade schools in class C. In addition, any student weighing less than 115 pounds and being less than fifteen years of age is eligible for competition in class C. Students will weigh in at eight o'clock on Saturday morning.

All high school students, to be eligible for taking part, must have entered their school on or before February 1, and have attended classes 90 per cent of the time, at the same time passing grades in all subjects. All students entering the grade school section shall have entered their school not later than the third week in January.

The program of the track and field events is as follows:

Track and Field Events.
100 yard dash, 220 yard dash, 440 yard dash, 880 yard run, relay, shot put, mile run, discus throw, high jump, broad jump, pole vault.

The Awarding of Trophies.
1. A loving cup will be awarded to the school making the highest score in track and field events, in classes A, B, and C.

2. A pennant will be given to the winners in chorus in high school and grade sections.

3. A medal will be given to the winner in the tennis singles.

4. Pennants will be given to the winners in tennis doubles.

5. Pennants will be given to the teams winning in baseball. Pennants will be given to winning relay in A and C class.

6. A gold medal will be given to the contestant making the highest number of points in all three classes of the track and field events.

7. A silver medal will be given to the contestants making the second highest number of points in all three classes.

8. A bronze medal will be given to the contestants making the third highest number of points in all three classes.

9. Gold medals will be given for first place only in the following events: Declamation, reading piano, spelling, fourth, fifth, sixth, seventh and eighth grade arithmetic and penmanship, spelling fifth, sixth, seventh and eighth.

10. Blue ribbons will be given to the first places, red ribbons will be given second places and white ribbons will be given third places in all track and field events, as individual prizes.

ROFF

MISS GENEVA J. HEATHMAN,
Reporter

The Schubert quartet, assisted by Misses Dorothy Crumley and Pauline Givens directed by Mrs. George O. Alvis, gave a concert at Kingston Monday night. It was pronounced the highest class program ever put on in Kingston. The quartet and assistants were guests of Misses Chick Richardson and Foster while in Kingston.

The grade schools gave a carnival Friday evening.

Miss Helen Crumley is visiting her sister Margaret in Ponca City.

Dr. George O. Alvis was an Ada visitor Wednesday.

Miss Margaret Crumley, formerly of Roff, is to engage in vocen work, the field of action being around the Great Lakes this fall and west coast next summer.

Miss Esther Heathman left for San Antonio Thursday where she will visit relatives.

Miss Dorothy Crumley is visiting in Kingston this week.

The Methodist League will take their play "Bashful Mr. Bob" to Hickory Saturday night.

E. L. Tucker is seriously ill this week.

On account of the bad weather only a few were permitted to attend the "Gypsy Rover" in Ada Wednesday and Thursday nights.

"A BOY OF FLANDERS"

Old and young will find "A Boy of Flanders" delightful entertainment. This Jackie Coogan production for Metro presents the child star in a role singularly adapted to his talents, and the Dutch costumes which he wears should make him more than ordinarily appealing to the feminine element of his audiences. In addition, the story has more than the usual quota of laughs and tear-compelling situations and the players are extremely capable partly because they are so perfectly cast. Many children supply atmosphere and comedy.

Director Victor Schertzinger has not developed the action rapidly evidently because of the wealth of opportunities for comedy touches and characterization. This comparatively slow movement of the plot—that is, according to prevailing motion picture standards—will not be noticed by many because of the story's human interest, the expertness of the acting and the beauty of the sets. An accusing finger can not be pointed at more than three of four scenes as unessential, for this very reason. The settings and the story would have suited Mary Pickford quite as well as Jackie Coogan; in fact, the picture is in some places reminiscent of a Pickford release.

Jackie's role is exactly right. As the vagabond boy looked down upon by the Dutch village, he does not have to make any pretense of dignity or reserve, but can be simply a lively, fun-loving kid, feeling the vicissitudes of life and yet get a lot of fun out of it. They are one of the greatest comedy and human interest teams of human and animal seen on the screen. Equally as cunning as Jackie is little Jean Carpenter, the ribboned object of his boyish affection, and a fat boy, whose

MODEL SCHOOLS SHOW INCREASE

Over Eighty Schools in East
Central District Meet
Requirements

The model school movement, begun during the past year under the supervision of the state superintendent, has resulted in a rapidly growing number of one-room schools reaching the standard set for such designations. With a schedule of points required for various phases of the work of such schools to work toward interest has been great.

East Central district leads the state, according to W. C. Herring, who during the last year was put in charge of the rural school work of the district. The counties comprising the district have already a total of over 81 one-room schools which have reached the desired rating. Mr. Herring states that he is now recording model schools at the rate of about 12 each week.

Teachers of the district are working hard and Mr. Herring expects a grand total of a hundred and fifty model schools by the opening of the summer session.

Pontotoc county is well represented in the movement with fifteen model schools already to the credit of individual teachers.

The movement was begun in this state by Miss Victoria Lyle while a county superintendent and has in view the bringing of all the one-room, one-teacher schools of the state to a higher standard of work and to accomplish more, nearly the same class of instruction.

STATE EXPENSES SHOW BIG GAINS

Parkinson Cites Figures on
Enormous Increase
Since 1917

OKLAHOMA CITY, April 4.—It has frequently been asked what becomes of the tremendous appropriations made for the expenses and support of state government, according to Fred Parkinson, state examiner and inspector.

In a statement issued by Parkinson he shows that certain increased in state government have increased more than 100 percent since 1917. The following are a few figures showing where some of the money goes:

For the fiscal year ending June 30, 1917, there was expended for traveling expenses \$136,818; for 1918, \$157,363; for 1919, \$174,279; for 1920, \$288,738; for 1921, \$274,677; for 1922, \$279,046; for 1923, \$367,731.

This shows an increase of 125 percent in 1923 in traveling expenses over the same item for 1917.

For the fiscal year ending June 30, 1917, the expense was \$62,968; for 1918, \$77,324; for 1919, \$96,534; for 1920, \$87,986; for 1921, \$96,802; for 1922, \$102,861; for 1923, \$118,970.

This shows a 90 per cent increase since 1917.

There was expended for printing in 1917, \$89,859; in 1918, \$90,069; in 1919, \$119,569; in 1920, \$109,035; in 1921, \$163,797; in 1922, \$150,772; in 1923, \$168,305.

This shows an 88 percent increase in the state's printing since 1917.

"I do not wish to convey the impression that this large increase in expenditures is justifiable. I can certainly justify an increase in my own department. I simply give the taxpayers the figures and they can look for the 'little bird' in any direction they choose," Parkinson said.

Telephone conversations in the United States annually total about 24 billion calls.

Make Sure of Early Delivery

Spring with its rush of Fordson orders will soon be here. To be sure of getting delivery in time, order now.

The demand for Fordsons is increasing every day, and you may be disappointed if you wait too long.

By placing your order early you will be sure of getting your Fordson in time for the preliminary work which will put it in the best condition for the heavier work of spring.

FORD MOTOR BOAT WINS SPEED RACE

"Nine Ninety Nine," Ford Product Takes Award In Water Event

There's a new victor in the motor boat racing world and wherever enthusiasts gather for the next few months to speculate on the big events scheduled for the coming season, its pretty safe to presume that they will have considerable to say about "Nine Ninety Nine."

Edsel B. Ford's new racer is a marvel in its class. To the old timers who gathered for the sweepstakes race down at Miami, Fla., a couple of weeks ago it was a complete surprise.

"Nine Ninety Nine" made its debut when it entered for the Biscayne Bay 1924 championship on the afternoon of March 7th, with half a dozen contenders for the honor. At the gun, the trim, sturdy little craft fairly leaped into the fray and then settled down beautifully for the 20-lap grind around the two-mile course. Soon it had half a lap lead over its nearest competitor and steadily maintained this until the end of the heat, and without being pushed to any extent carried away the honors of the day in splendid style.

"Nine Ninety Nine", with the same sure, confident air of the first day, and letting out a trifle more went the second heat of the race with a new burst of speed, lapped its nearest competitor three times and easily held that lead to the end of the forty-mile grind, winning the championship and the MeAllister Hotel Trophy, a magnificent silver cup standing 29 inches on its base of ebony.

"Nine Ninety Nine" arrived home a day or two ago—at the Ford Engineering Laboratory out at Dearborn, Mich., where it will remain until the big classics later in the year.

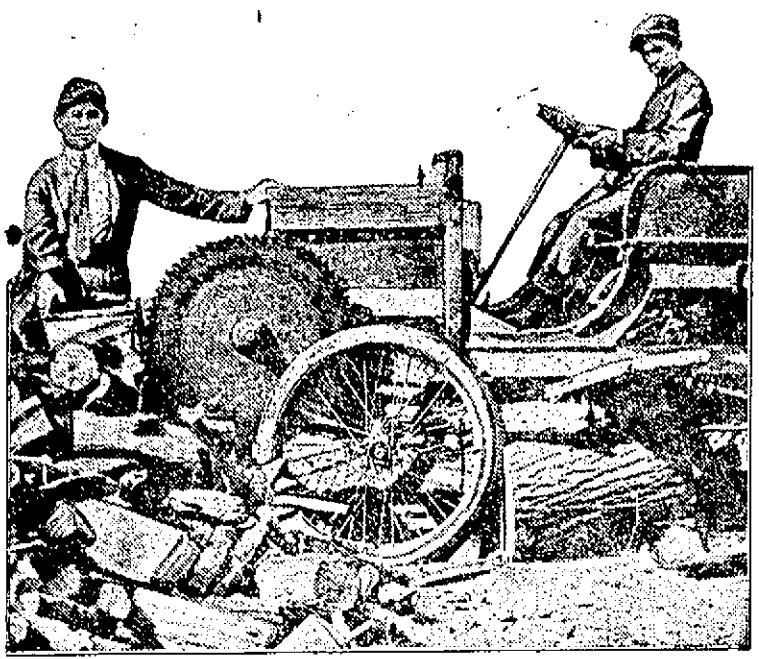

The name, "Nine Ninety Nine", flashing its silvered letters on the sides, seemed rather familiar and perhaps a bit significant.

Many will remember the name. Not a score of years ago, when Henry Ford was pioneering in the automobile business he developed a racing car, christened it "999" and drove it to victory in races all over the country. It was with "999" that he first broke the mile-a-minute records.

Ford experts, pioneering now in gas driven nautical engines, seem to have attained a notable achievement in the motor hidden beneath the gleaming deck of "Nine Ninety Nine", which returned a winner in the first race of its career.

The "Nine Ninety Nine", is 28 feet, 6 inches long and has a 6-foot beam. It is of V bottom displacement and built for the International Sweepstakes class. It is of mahog-

OLD AUTO USED FOR SAWING WOOD

When the old car in the picture was no longer of use as a joy-riding car it was turned into a wood-sawing machine and as such it earned more than a livelihood for the owner, who lives near Lewistown, Pa. Moved from place to place, it saved hundreds of cords in Millfin county, Pennsylvania.

any with a three-ply bottom, two-ply sides and one-ply top. The deck is of streamline design, and there is no raised engine barrel.

The engine, a 12-cylinder Ford Liberty marine conversion is a distinct development of Ford engines.

In building it they used the crank case, crankshaft and connecting rods of the Ford Liberty aircraft engine. The pistons, camshafts, valves, valve springs, ignition system, carburetors, induction manifold and exhaust piping are of new design. The cylinders are of an entirely different design than in the Liberty and are made of steel forgings welded together.

The original displacement of the Liberty was 1650 cubic inches, but in the new engine the displacement is 1350 cubic inches, about 20 per cent less than that of the Liberty but despite this more horsepower is developed.

A dry plate clutch was designed and this with the gear box were built in the Highland Park Plant of the Ford Motor company.

A gear box is an engineering achievement and a type heretofore never used in motor boat engines, designed to stand up under the most severe continuous driving and able to transmit 99 per cent of the power from the engine to the driving shaft. Gear boxes used in other marine engines are formed of coarse, straight teeth, while in the Ford Marine 12 the gear is of fine pitch, having bone bevels which transmit the power without any appreciable noise, a new feature in engineering design.

There is nothing of the "hay-wire engine" about this power plant. It was built from the "boards" up. Stresses in all parts were carefully

calculated and the designs were worked out and developed by the highest engineering skill.

Another new development is the use of a two-gear universal joint in the line drive, so that whenever the power plant is out of line with the bottom of the boat there is sufficient leeway to prevent any loss of power due to binding.

Aiding in the cockpit of the "Nine Ninety Nine" is much like riding at the driver's seat of a Lincoln limousine so far as cleanliness is concerned. There's none of the dirt, oil, and grease usually associated with motor boat driving. The air coming in at the front of the engine, circulates through it, down underneath the cockpit and comes through aluminum louvers in the rear hatch. The boat has storage capacity for 150 gallons of gasoline.

What is the speed of the "Nine Ninety Nine"? No one says, or rather no one tells. About the most any one will say is that in tests made in the big boat slip at River Rouge plant of the Ford Motor company the speed attained was everything that was anticipated.

Esthonian Minorities Are Happy

REVAL.—Esthonia, with its population of 1,500,000, including 200,000 Germans, Swedes, and Russians has reached a solution of the minority problem which has been vexing the government since the little Baltic state was founded and which is reported to be working most satisfactorily to all concerned. Terms of the agreement, based on the principle of cultural autonomy and local self-government, were approved some time ago by the League of Nations.

COTTON RAISERS PLAN SHIPMENT

Plan to Sell Products Direct; Oklahoma Growers In Association

HOUSTON, Texas.—The Southern Cotton Shippers association was tentatively formed here today. It is expected that a permanent organization will be formed to embody several statewide groups of cotton men, including the Texas Cotton association, the Oklahoma State Cotton association, the Arkansas Cotton Trade association, all of whom are represented in a meeting here today and cotton men of Louisiana, Mississippi, Alabama and the Carolinas and all other cotton growing states.

That there is a sentiment among the cotton men from the various states represented for an all-southern association was indicated by expressions at the preliminary sessions. All agreed the proposed plan is a feasible one.

The purpose of the association among other things would be fair play to trade relations, negotiations with spinners, elimination of misunderstandings between southern spinners and buyers of raw cotton, reduction of handling costs and an ultimate reduction in the margin between the producer and consumers.

H. M. Bennett of the Arkansas association was made tentative chairman of the meeting today and R. C. Dickerson of the Texas association, tentative secretary.

The meetings of the cotton men will continue through Friday and Saturday.

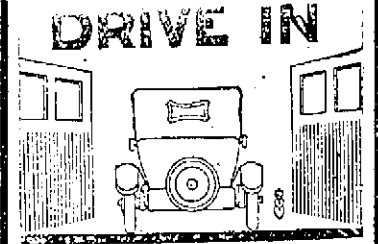

Motorist Harken To Commissioners In Their Appeal

Motorists have referred to a certain extent is the belief of county commissioners, who declare that the volume of refuse thrown on the county highways has decreased in the past few weeks.

Commissioners declare that they will not slacken their vigilance in keeping the highways passable through absence of excess rubbish but will continue to seek prosecution for all who violate the law governing the dumping of refuse on county highways.

Regardless of the heading of motorists to the appeal of the commissioners, the county fathers fear a tough time during the summer when picnics and other roadside parties are the vogue.

AUSTRIA'S WEALTH SOUGHT BY STATE TAX COLLECTORS

(By the Associated Press)
VIENNA.—Tax hungry authorities have decided that in some directions they have been too lenient in the past, and that hence forward the man who can afford domestic servants must contribute more generously to the state.

It has, therefore, been ruled that the tax on the employment of more than three domestic servants in the same household be raised ten fold. And the wealthy who have in their service more than ten domestics—there are only 60 such households in Austria—will be assessed at even a higher rate of increase. Baron Rothschild employs a total of 47 ser-

vants, and for this privilege pays a tax of \$14,000.

STUDEBAKER LIGHT-SIX TOURING CAR

\$1045

Mark This Example of what Studebaker alone can do

STUDEBAKER is the world's largest maker of quality cars. Our assets are \$90,000,000. We have \$50,000,000 in model plants.

Our sales have almost trebled in three years, because of our matchless values. Last year, 145,167 people paid \$201,000,000 for Studebaker cars.

Come and learn why

Come and see, before you buy a car, the reasons for this success. See this Light-Six Touring Car, for instance.

Built of the finest steels. Of the very same steels we use in the costliest of our cars. On some we pay makers 15% premium to get just the quality specified.

Built under an engineering department which costs us \$500,000 yearly.

Each car subjected in the building to 32,000 separate inspections. Same steels, same workmanship as in the costliest Studebaker models.

Two great features

There are many features in this Light-Six found in no rival car. But we want to mention two in particular.

The motor is perfectly balanced. That means long life and freedom from vibration.

The reason is this: We machine all surfaces of our crankshafts and connecting rods by 61 operations. Just as was done in Liberty Airplane

Motors. This is done in no other car at our prices. Then we use more Timken bearings in this car than are used in any competitive car within \$1,500 of our price. And Timken bearings take up wear as no other bearings do.

Why this price?

This Light-Six Touring Car is priced at \$1,045. Built under ordinary conditions such a car would cost you from \$200 to \$400 more.

But we build 150,000 cars per year. We make our own parts. We build our own bodies in \$10,000,000 body plants. We have 12,500 up-to-date machines. Our major costs are divided by enormous output.

The result is a value no other maker even tries to match in a fine car of this size. Come see what it means to you.

Send for the Book

Mail us the coupon below. We will send you free our new book that will inform you on five simple things which reveal the value of a car. For instance—

It will enable you to look at any car and tell whether it's been cheapened to meet a price or offers true quality.

It will tell you why some cars rattle at 20,000 miles, and others don't. It shows one single point in a closed car which measures whether you're getting top or medium quality. The book is free. Clip the coupon now.

How It Excels

Steels are identical with the steels in the costliest car we make. More Timken bearings than in any competitive car within \$1,500 of its price.

Genuine leather cushions, 10 inches deep. Curled hair filling. All-steel body.

One-piece windshield—rainproof. Attractive cowl lights.

Quick-action cowl ventilator.

Non-skid cord tires.

Transmission and ignition locks.

Perfect motor balance.

The supreme car of its class.

Send coupon for book about it.

EXCEPTIONAL RIDING COMFORT

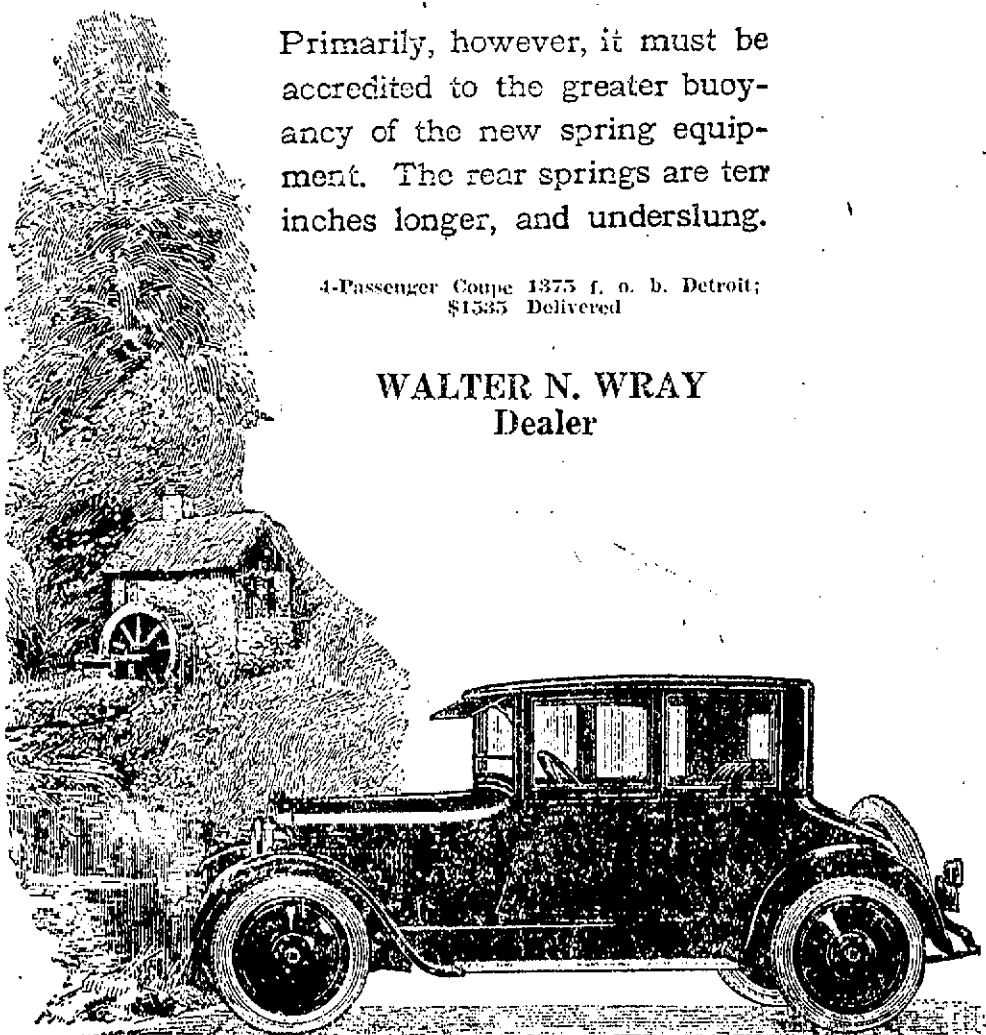

Owners continue to comment on the marked riding comfort of Dodge Brothers Motor Car.

Increased chassis length, low-slung body and generous seat depth have much to do with this.

Primarily, however, it must be accredited to the greater buoyancy of the new spring equipment. The rear springs are ten inches longer, and underslung.
